Note 1. Formation and Business Purpose

New Mountain Finance Corporation (“NMFC” or the “Company”) is a Delaware corporation that was originally incorporated on June 29, 2010 and completed its initial public offering (“IPO”) on May 19, 2011. NMFC is a closed-end, non-diversified management investment company that has elected to be regulated as a business development company (“BDC”) under the Investment Company Act of 1940, as amended (the “1940 Act”). NMFC has elected to be treated, and intends to comply with the requirements to continue to qualify annually, as a regulated investment company (“RIC”) under Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”). NMFC is also registered as an investment adviser under the Investment Advisers Act of 1940, as amended (the “Advisers Act”). Since NMFC’s IPO, and through September 30, 2018, NMFC raised approximately \$614,581 in net proceeds from additional offerings of its common stock.

New Mountain Finance Advisers BDC, L.L.C. (the “Investment Adviser”) is a wholly-owned subsidiary of New Mountain Capital Group, L.P. (together with New Mountain Capital, L.L.C. and its affiliates, “New Mountain Capital”) whose ultimate owners include Steven B. Klinsky and related other vehicles. New Mountain Capital is a firm with a track record of investing in the middle market. New Mountain Capital focuses on investing in defensive growth companies across its private equity, public equity and credit investment vehicles. The Investment Adviser manages the Company’s day-to-day operations and provides it with investment advisory and management services. New Mountain Finance Administration, L.L.C. (the “Administrator”), a wholly-owned subsidiary of New Mountain Capital, provides the administrative services necessary to conduct the Company’s day-to-day operations.

The Company’s wholly-owned subsidiary, New Mountain Finance Holdings, L.L.C. (“NMF Holdings”), is a Delaware limited liability company whose assets are used to secure NMF Holdings’ credit facility. NMF Ancora Holdings Inc. (“NMF Ancora”), NMF QID NGL Holdings, Inc. (“NMF QID”) and NMF YP Holdings Inc. (“NMF YP”), the Company’s wholly-owned subsidiaries, are structured as Delaware entities that serve as tax blocker corporations which hold equity or equity-like investments in portfolio companies organized as limited liability companies (or other forms of pass-through entities). The Company consolidates its tax blocker corporations for accounting purposes. The tax blocker corporations are not consolidated for income tax purposes and may incur income tax expense as a result of their ownership of portfolio companies. Additionally, the Company has a wholly-owned subsidiary, New Mountain Finance Servicing, L.L.C. (“NMF Servicing”), that serves as the administrative agent on certain investment transactions. New Mountain Finance SBIC, L.P. (“SBIC I”) and its general partner, New Mountain Finance SBIC G.P., L.L.C. (“SBIC I GP”), were organized in Delaware as a limited partnership and limited liability company, respectively. New Mountain Finance SBIC II, L.P. (“SBIC II”) and its general partner, New Mountain Finance SBIC II G.P., L.L.C. (“SBIC II GP”), were also organized in Delaware as a limited partnership and limited liability company, respectively. SBIC I, SBIC I GP, SBIC II and SBIC II GP are consolidated wholly-owned direct and indirect subsidiaries of the Company. SBIC I and SBIC II received licenses from the United States (“U.S.”) Small Business Administration (the “SBA”) to operate as small business investment companies (“SBICs”) under Section 301(c) of the Small Business Investment Act of 1958, as amended (the “1958 Act”). The Company’s wholly-owned subsidiary, New Mountain Net Lease Corporation (“NMNLC”), a Maryland corporation, was formed to acquire commercial real properties that are subject to “triple net” leases and has qualified and intends to continue to qualify as a real estate investment trust, or REIT, within the meaning of Section 856(a) of the Code.

The Company’s investment objective is to generate current income and capital appreciation through the sourcing and origination of debt securities at all levels of the capital structure, including first and second lien debt, notes, bonds and mezzanine securities. The first lien debt may include traditional first lien senior secured loans or unitranche loans. Unitranche loans combine characteristics of traditional first lien senior secured loans as well as second lien and subordinated loans. Unitranche loans will expose the Company to the risks associated with second lien and subordinated loans to the extent the Company invests in the “last out” tranche. In some cases, the Company’s investments may also include equity interests. The Company’s primary focus is in the debt of defensive growth companies, which are defined as generally exhibiting the following characteristics: (i) sustainable secular growth drivers, (ii) high barriers to competitive entry, (iii) high free cash flow after capital expenditure and working capital needs, (iv) high returns on assets and (v) niche market dominance. Similar to the Company, SBIC I’s and SBIC II’s investment objectives are to generate current income and capital appreciation under the investment criteria used by the Company. However, SBIC I and SBIC II investments must be in SBA eligible small businesses. The Company’s portfolio may be concentrated in a limited number of industries. As of September 30, 2018, the Company’s top five industry concentrations were business services, software, healthcare services, education and investment funds.

Note 2. Summary of Significant Accounting Policies

Basis of accounting—The Company’s consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”). The Company is an investment company following accounting and reporting guidance in Accounting Standards Codification Topic 946, *Financial Services—Investment Companies*, (“ASC 946”). NMFC consolidates its wholly-owned direct and indirect subsidiaries: NMF Holdings, NMF Servicing, NMNLC, SBIC I, SBIC I GP, SBIC II, SBIC II GP, NMF Ancora, NMF QID and NMF YP.

The Company’s consolidated financial statements reflect all adjustments and reclassifications which, in the opinion of management, are necessary for the fair presentation of the results of operations and financial condition for all periods presented. All intercompany transactions have been eliminated. Revenues are recognized when earned and expenses when incurred. The financial results of the Company’s portfolio investments are not consolidated in the financial statements.

The Company’s interim consolidated financial statements are prepared in accordance with GAAP and pursuant to the requirements for reporting on Form 10-Q and Article 6 or 10 of Regulation S-X. Accordingly, the Company’s interim consolidated financial statements do not include all of the information and notes required by GAAP for annual financial statements. In the opinion of management, all adjustments, consisting solely of normal recurring accruals considered necessary for the fair presentation of financial statements for the interim period, have been included. The current period’s results of operations will not necessarily be indicative of results that ultimately may be achieved for the fiscal year ending December 31, 2018.

Investments—The Company applies fair value accounting in accordance with GAAP. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments are reflected on the Company’s Consolidated Statements of Assets and Liabilities at fair value, with changes in unrealized gains and losses resulting from changes in fair value reflected in the Company’s Consolidated Statements of Operations as “Net change in unrealized appreciation (depreciation) of investments” and realizations on portfolio investments reflected in the Company’s Consolidated Statements of Operations as “Net realized gains (losses) on investments”.

The Company values its assets on a quarterly basis, or more frequently if required under the 1940 Act. In all cases, the Company’s board of directors is ultimately and solely responsible for determining the fair value of the portfolio investments on a quarterly basis in good faith, including investments that are not publicly traded, those whose market prices are not readily available and any other situation where its portfolio investments require a fair value determination. Security transactions are accounted for on a trade date basis. The Company’s quarterly valuation procedures are set forth in more detail below:

- (1) Investments for which market quotations are readily available on an exchange are valued at such market quotations based on the closing price indicated from independent pricing services.
- (2) Investments for which indicative prices are obtained from various pricing services and/or brokers or dealers are valued through a multi-step valuation process, as described below, to determine whether the quote(s) obtained is representative of fair value in accordance with GAAP.
 - a. Bond quotes are obtained through independent pricing services. Internal reviews are performed by the investment professionals of the Investment Adviser to ensure that the quote obtained is representative of fair value in accordance with GAAP and, if so, the quote is used. If the Investment Adviser is unable to sufficiently validate the quote(s) internally and if the investment’s par value or its fair value exceeds the materiality threshold, the investment is valued similarly to those assets with no readily available quotes (see (3) below); and
 - b. For investments other than bonds, the Company looks at the number of quotes readily available and performs the following procedures:
 - i. Investments for which two or more quotes are received from a pricing service are valued using the mean of the mean of the bid and ask of the quotes obtained.
 - ii. Investments for which one quote is received from a pricing service are validated internally. The investment professionals of the Investment Adviser analyze the market quotes obtained using an array of valuation methods (further described below) to validate the fair value. If the Investment Adviser is unable to sufficiently validate the quote internally and if the investment’s par value or its fair value exceeds the materiality threshold, the investment is valued similarly to those assets with no readily available quotes (see (3) below).
- (3) Investments for which quotations are not readily available through exchanges, pricing services, brokers, or dealers are valued through a multi-step valuation process:

- a. Each portfolio company or investment is initially valued by the investment professionals of the Investment Adviser responsible for the credit monitoring;
- b. Preliminary valuation conclusions will then be documented and discussed with the Company's senior management;
- c. If an investment falls into (3) above for four consecutive quarters and if the investment's par value or its fair value exceeds the materiality threshold, then at least once each fiscal year, the valuation for each portfolio investment for which the Company does not have a readily available market quotation will be reviewed by an independent valuation firm engaged by the Company's board of directors; and
- d. When deemed appropriate by the Company's management, an independent valuation firm may be engaged to review and value investment(s) of a portfolio company, without any preliminary valuation being performed by the Investment Adviser. The investment professionals of the Investment Adviser will review and validate the value provided.

For investments in revolving credit facilities and delayed draw commitments, the cost basis of the funded investments purchased is offset by any costs/netbacks received for any unfunded portion on the total balance committed. The fair value is also adjusted for the price appreciation or depreciation on the unfunded portion. As a result, the purchase of a commitment not completely funded may result in a negative fair value until it is called and funded.

The values assigned to investments are based upon available information and do not necessarily represent amounts which might ultimately be realized, since such amounts depend on future circumstances and cannot be reasonably determined until the individual positions are liquidated. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the Company's investments may fluctuate from period to period and the fluctuations could be material.

See Note 3. *Investments*, for further discussion relating to investments.

Collateralized agreements or repurchase financings—The Company follows the guidance in Accounting Standards Codification Topic 860, *Transfers and Servicing—Secured Borrowing and Collateral*, ("ASC 860") when accounting for transactions involving the purchases of securities under collateralized agreements to resell (resale agreements). These transactions are treated as collateralized financing transactions and are recorded at their contracted resale or repurchase amounts, as specified in the respective agreements. Interest on collateralized agreements is accrued and recognized over the life of the transaction and included in interest income. As of September 30, 2018 and December 31, 2017, the Company held one collateralized agreement to resell with a cost basis of \$30,000 and \$30,000, respectively, and a fair value of \$25,200 and \$25,212, respectively. The collateralized agreement to resell is guaranteed by a private hedge fund. The private hedge fund is currently in liquidation under the laws of the Cayman Islands. Pursuant to the terms of the collateralized agreement, the private hedge fund was obligated to repurchase the collateral from the Company at the par value of the collateralized agreement. The

private hedge fund has breached its agreement to repurchase the collateral under the collateralized agreement. The default by the private hedge fund did not release the collateral to the Company, and therefore, the Company does not have full rights and title to the collateral. A claim has been filed with the Cayman Islands joint official liquidators to resolve this matter. The joint official liquidators have recognized the Company's contractual rights under the collateralized agreement. The Company continues to exercise its rights under the collateralized agreement and continues to monitor the liquidation process of the private hedge fund. The fair value of the collateralized agreement to resell is reflective of the increased risk of the position.

Cash and cash equivalents—Cash and cash equivalents include cash and short-term, highly liquid investments. The Company defines cash equivalents as securities that are readily convertible into known amounts of cash and so near maturity that there is insignificant risk of changes in value. These securities have original maturities of three months or less. The Company did not hold any cash equivalents as of September 30, 2018 and December 31, 2017.

Revenue recognition

Sales and paydowns of investments: Realized gains and losses on investments are determined on the specific identification method.

Interest and dividend income: Interest income, including amortization of premium and discount using the effective interest method, is recorded on the accrual basis and periodically assessed for collectability. Interest income also includes interest earned from cash on hand. Upon the prepayment of a loan or debt security, any prepayment penalties are recorded as part of interest income. The Company has loans and certain preferred equity investments in the portfolio that contain a payment-in-kind ("PIK") interest or dividend provision. PIK interest and dividends are accrued and recorded as income at the contractual rates, if deemed collectible. The PIK interest and dividends are added to the principal or share balances on the capitalization dates and are generally due at maturity or when redeemed by the issuer. For the three and nine months ended September 30, 2018, the Company recognized PIK and non-cash interest from investments of \$2,462 and \$6,074, respectively, and PIK and non-cash dividends from investments of \$7,236 and \$20,987, respectively. For the three and nine months ended September 30, 2017, the Company recognized PIK and non-cash interest from investments of \$1,552 and \$4,747, respectively, and PIK and non-cash dividends from investments of \$5,395 and \$11,713, respectively.

Dividend income on common equity is recorded on the record date for private portfolio companies or on the ex-dividend date for publicly traded portfolio companies. Dividend income on preferred securities is recorded as dividend income on an accrual basis to the extent that such amounts are deemed collectible.

Non-accrual income: Investments are placed on non-accrual status when principal or interest payments are past due for 30 days or more and when there is reasonable doubt that principal or interest will be collected. Accrued cash and un-capitalized PIK interest or dividends are reversed when an investment is placed on non-accrual status. Previously capitalized PIK interest or dividends are not reversed when an investment is placed on non-accrual status. Interest or dividend payments received on non-accrual investments may be recognized as income or applied to principal depending upon management's judgment of the ultimate outcome. Non-accrual investments are restored to accrual status when past due principal and interest is paid and, in management's judgment, are likely to remain current.

Other income: Other income represents delayed compensation, consent or amendment fees, revolver fees, structuring fees, upfront fees, management fees from a non-controlled/affiliated investment and other miscellaneous fees received and are typically non-recurring in nature. Delayed compensation is income earned from counterparties on trades that do not settle within a set number of business days after trade date. Other income may also include fees from bridge loans. The Company may from time to time enter into bridge financing commitments, an obligation to provide interim financing to a counterparty until permanent credit can be obtained. These commitments are short-term in nature and may expire unfunded. A fee is received by the Company for providing such commitments. Structuring fees and upfront fees are recognized as income when earned, usually when paid at the closing of the investment, and are non-refundable.

Interest and other financing expenses—Interest and other financing fees are recorded on an accrual basis by the Company. See Note 7. *Borrowings*, for details.

Deferred financing costs—The deferred financing costs of the Company consists of capitalized expenses related to the origination and amending of the Company's borrowings. The Company amortizes these costs into expense over the stated life of the related borrowing. See Note 7. *Borrowings*, for details.

Deferred offering costs—The Company's deferred offering costs consists of fees and expenses incurred in connection with equity offerings and the filing of shelf registration statements. Upon the issuance of shares, offering costs are charged as a direct reduction to net assets. Deferred offering costs are included in other assets on the Company's Consolidated Statements of Assets and Liabilities.

Income taxes—The Company has elected to be treated, and intends to comply with the requirements to qualify annually, as a RIC under Subchapter M of the Code. As a RIC, the Company is not subject to U.S. federal income tax on the portion of taxable income and gains timely distributed to its stockholders.

To continue to qualify and be subject to tax as a RIC, the Company is required to meet certain income and asset diversification tests in addition to distributing at least 90.0% of its investment company taxable income, as defined by the Code. Since U.S. federal income tax regulations differ from GAAP, distributions in accordance with tax regulations may differ from net investment income and realized gains recognized for financial reporting purposes.

Differences between taxable income and the results of operations for financial reporting purposes may be permanent or temporary in nature. Permanent differences are reclassified among capital accounts in the financial statements to reflect their tax character. Differences in classification may also result from the treatment of short-term gains as ordinary income for tax purposes.

For U.S. federal income tax purposes, distributions paid to stockholders of the Company are reported as ordinary income, return of capital, long term capital gains or a combination thereof.

The Company will be subject to a 4.0% nondeductible federal excise tax on certain undistributed income unless the Company distributes, in a timely manner as required by the Code, an amount at least equal to the sum of (1) 98.0% of its respective net ordinary income earned for the calendar year and (2) 98.2% of its respective capital gain net income for the one-year period ending October 31 in the calendar year.

Certain consolidated subsidiaries of the Company are subject to U.S. federal and state income taxes. These taxable entities are not consolidated for income tax purposes and may generate income tax liabilities or assets from permanent and temporary differences in the recognition of items for financial reporting and income tax purposes.

For the three and nine months ended September 30, 2018, the Company recognized a total income tax provision of approximately \$227 and \$1,272, respectively, for the Company's consolidated subsidiaries. For the three and nine months ended September 30, 2018, the Company recorded current income tax expense of approximately \$225 and \$286, respectively, and deferred income tax provision of approximately \$2 and \$986, respectively. For the three and nine months ended September 30, 2017, the Company recognized a total income tax (provision) benefit of approximately \$(500) and \$184, respectively, for the Company's consolidated subsidiaries. For the three and nine months ended September 30, 2017, the Company recorded current income tax expense of approximately \$106 and \$341, respectively, and deferred income tax (provision) benefit of approximately \$(394) and \$525, respectively.

As of September 30, 2018 and December 31, 2017, the Company had \$1,880 and \$894, respectively, of deferred tax liabilities primarily relating to deferred taxes attributable to certain differences between the computation of income for U.S. federal income tax purposes as compared to GAAP.

The Company has adopted the Income Taxes topic of the Accounting Standards Codification Topic 740 ("ASC 740"). ASC 740 provides guidance for income taxes, including how uncertain income tax positions should be recognized, measured, and disclosed in the financial statements. Based on its analysis, the Company has determined that there were no uncertain income tax positions that do not meet the more likely than not threshold through December 31, 2017. The 2014 through 2017 tax years remain subject to examination by the U.S. federal, state, and local tax authorities.

Distributions—Distributions to common stockholders of the Company are recorded on the record date as set by the board of directors. The Company intends to make distributions to its stockholders that will be sufficient to enable the Company to maintain its status as a RIC. The Company intends to distribute approximately all of its net investment income on a quarterly basis and substantially all of its taxable income on an annual basis, except that the Company may retain certain net capital gains for reinvestment.

The Company has adopted a dividend reinvestment plan that provides for reinvestment of any distributions declared on behalf of its stockholders, unless a stockholder elects to receive cash.

The Company applies the following in implementing the dividend reinvestment plan. If the price at which newly issued shares are to be credited to stockholders' accounts is equal to or greater than 110.0% of the last determined net asset value of the shares, the Company will use only newly issued shares to implement its dividend reinvestment plan. Under such circumstances, the number of shares to be issued to a stockholder is determined by dividing the total dollar amount of the distribution payable to such stockholder by the market price per share of the Company's common stock on the New York Stock Exchange ("NYSE") on the distribution payment date. Market price per share on that date will be the closing price for such shares on the NYSE or, if no sale is reported for such day, the average of their electronically reported bid and ask prices.

If the price at which newly issued shares are to be credited to stockholders' accounts is less than 110.0% of the last determined net asset value of the shares, the Company will either issue new shares or instruct the plan administrator to purchase shares in the open market to satisfy the additional shares required. Shares purchased in open market transactions by the plan

administrator will be allocated to a stockholder based on the average purchase price, excluding any brokerage charges or other charges, of all shares of common stock purchased in the open market. The number of shares of the Company's common stock to be outstanding after giving effect to payment of the distribution cannot be established until the value per share at which additional shares will be issued has been determined and elections of the Company's stockholders have been tabulated.

Share repurchase program—On February 4, 2016, the Company's board of directors authorized a program for the purpose of repurchasing up to \$50,000 worth of the Company's common stock. Under the repurchase program, the Company was permitted, but was not obligated, to repurchase its outstanding common stock in the open market from time to time provided that it complied with the Company's code of ethics and the guidelines specified in Rule 10b-18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), including certain price, market volume and timing constraints. In addition, any repurchases were conducted in accordance with the 1940 Act. On December 29, 2017, the Company's board of directors extended the Company's repurchase program and the Company expects the repurchase program to be in place until the earlier of December 31, 2018 or until \$50,000 of its outstanding shares of common stock have been repurchased. During the three and nine months ended September 30, 2018 and September 30, 2017, the Company did not repurchase any shares of the Company's common stock. The Company previously repurchased \$2,948 of its common stock under the share repurchase program.

Earnings per share—The Company's earnings per share ("EPS") amounts have been computed based on the weighted-average number of shares of common stock outstanding for the period. Basic EPS is computed by dividing net increase (decrease) in net assets resulting from operations by the weighted average number of shares of common stock outstanding during the period of computation. Diluted EPS is computed by dividing net increase (decrease) in net assets resulting from operations by the weighted average number of shares of common stock assuming all potential shares had been issued, and its related net impact to net assets accounted for, and the additional shares of common stock were dilutive. Diluted EPS reflects the potential dilution, using the as-if-converted method for convertible debt, which could occur if all potentially dilutive securities were exercised.

Foreign securities—The accounting records of the Company are maintained in U.S. dollars. Investment securities denominated in foreign currencies are translated into U.S. dollars based on the rate of exchange of such currencies on the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollars based on the rate of exchange of such currencies on the respective dates of the transactions. The Company does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with "Net change in unrealized appreciation (depreciation) of investments" and "Net realized gains (losses) on investments" in the Company's Consolidated Statements of Operations.

Investments denominated in foreign currencies may be negatively affected by movements in the rate of exchange between the U.S. dollar and such foreign currencies. This movement is beyond the control of the Company and cannot be predicted.

Use of estimates—The preparation of the Company's consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the Company's consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Changes in the economic environment, financial markets, and other metrics used in determining these estimates could cause actual results to differ from the estimates used, and the differences could be material.

Dividend income recorded related to distributions received from flow-through investments is an accounting estimate based on the most recent estimate of the tax treatment of the distribution.

PPVA Black Elk (Equity) LLC

On May 3, 2013, the Company entered into a collateralized securities purchase and put agreement (the "SPP Agreement") with a private hedge fund. Under the SPP Agreement, the Company purchased twenty million Class E Preferred Units of Black Elk Energy Offshore Operations, LLC ("Black Elk") for \$20,000 with a corresponding obligation of the private hedge fund to repurchase the preferred units for \$20,000 plus other amounts due under the SPP Agreement. The majority owner of Black Elk was the private hedge fund. In August 2014, the Company received a payment of \$20,540, the full amount due under the SPP Agreement.

In August 2017, a trustee (the "Trustee") for Black Elk informed the Company that the Trustee intended to assert a fraudulent conveyance claim (the "Claim") against the Company and one of its affiliates seeking the return of the \$20,540 repayment. Black Elk filed a Chapter 11 bankruptcy petition pursuant to the United States Bankruptcy Code in August 2015. The Trustee alleges that individuals affiliated with the private hedge fund conspired with Black Elk and others to improperly use proceeds from the sale of certain Black Elk assets to repay, in August 2014, the private hedge fund's obligation to the Company under the SPP Agreement. The Company was unaware of these claims at the time the repayment was received. The private hedge fund is currently in liquidation under the laws of the Cayman Islands.

On December 22, 2017, the Company settled the Trustee's \$20,540 Claim for \$16,000 and filed a claim with the Cayman Islands joint official liquidators of the private hedge fund for \$16,000 that is owed to the Company under the SPP Agreement. The SPP Agreement was restored and is in effect since repayment has not been made. The Company continues to exercise its rights under the SPP Agreement and continues to monitor the liquidation process of the private hedge fund. During the nine months ended September 30, 2018, the Company received a \$1,500 payment from its insurance carrier in respect to the settlement. As of September 30, 2018, the SPP Agreement has a cost basis of \$14,500 and a fair value of \$12,180, which is reflective of the higher inherent risk in this transaction.

Accordingly, the Company does not consolidate SLP III.

Investment Risk Factors

First and second lien debt that the Company invests in is almost entirely rated below investment grade or may be unrated. Debt investments rated below investment grade are often referred to as “leveraged loans”, “high yield” or “junk” debt investments, and may be considered “high risk” compared to debt investments that are rated investment grade. These debt investments are considered speculative because of the credit risk of the issuers. Such issuers are considered more likely than investment grade issuers to default on their payments of interest and principal, and such risk of default could reduce the net asset value and income distributions of the Company. In addition, some of the Company's debt investments will not fully amortize during their lifetime, which could result in a loss or a substantial amount of unpaid principal and interest due upon maturity. First and second lien debt may also lose significant market value before a default occurs. Furthermore, an active trading market may not exist for these first and second lien debt investments. This illiquidity may make it more difficult to value the debt.

Subordinated debt is generally subject to similar risks as those associated with first and second lien debt, except that such debt is subordinated in payment and/or lower in lien priority. Subordinated debt is subject to the additional risk that the cash flow of the borrower and the property securing the debt, if any, may be insufficient to meet scheduled payments after giving effect to the senior secured and unsecured obligations of the borrower.

The Company may directly invest in the equity of private companies or, in some cases, equity investments could be made in connection with a debt investment. Equity investments may or may not fluctuate in value, resulting in recognized realized gains or losses upon disposition.

Note 4. Fair Value

Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 establishes a fair value hierarchy that prioritizes and ranks the inputs to valuation techniques used in measuring investments at fair value. The hierarchy classifies the inputs used in measuring fair value into three levels as follows:

Level I—Quoted prices (unadjusted) are available in active markets for identical investments and the Company has the ability to access such quotes as of the reporting date. The type of investments which would generally be included in Level I include active exchange-traded equity securities and exchange-traded derivatives. As required by ASC 820, the Company, to the extent that it holds such investments, does not adjust the quoted price for these investments, even in situations where the Company holds a large position and a sale could reasonably impact the quoted price.

Level II—Pricing inputs are observable for the investments, either directly or indirectly, as of the reporting date, but are not the same as those used in Level I. Level II inputs include the following:

- Quoted prices for similar assets or liabilities in active markets;

[Table of Contents](#)

- Quoted prices for identical or similar assets or liabilities in non-active markets (examples include corporate and municipal bonds, which trade infrequently);
- Pricing models whose inputs are observable for substantially the full term of the asset or liability (examples include most over-the-counter derivatives, including foreign exchange forward contracts); and
- Pricing models whose inputs are derived principally from or corroborated by observable market data through correlation or other means for substantially the full term of the asset or liability.

Level III—Pricing inputs are unobservable for the investment and include situations where there is little, if any, market activity for the investment.

The inputs used to measure fair value may fall into different levels. In all instances when the inputs fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level of input that is significant to the fair value measurement in its entirety. As such, a Level III fair value measurement may include inputs that are both observable and unobservable. Gains and losses for such assets categorized within the Level III table below may include changes in fair value that are attributable to both observable inputs and unobservable inputs.

The inputs into the determination of fair value require significant judgment or estimation by management and consideration of factors specific to each investment. A review of the fair value hierarchy classifications is conducted on a quarterly basis. Changes in the observability of valuation inputs may result in the transfer of certain investments within the fair value hierarchy from period to period. Reclassifications impacting the fair value hierarchy are reported as transfers in/out of the respective leveling categories as of the beginning of the period in which the reclassifications occur.

The following table summarizes the levels in the fair value hierarchy that the Company's portfolio investments fall into as of September 30, 2018:

Except as noted in the tables above, there were no other transfers in or out of Level I, II, or III during the three and nine months ended September 30, 2018 and September 30, 2017. Transfers into Level III occur as quotations obtained through pricing services are deemed not representative of fair value as of the balance sheet date and such assets are internally valued. As quotations obtained through pricing services are substantiated through additional market sources, investments are transferred out of Level III. In addition, transfers out of Level III and transfers into Level III occur based on the increase or decrease in the availability of certain observable inputs.

The Company invests in revolving credit facilities. These investments are categorized as Level III investments as these assets are not actively traded and their fair values are often implied by the term loans of the respective portfolio companies.

The Company generally uses the following framework when determining the fair value of investments where there are little, if any, market activity or observable pricing inputs. The Company typically determines the fair value of its performing debt investments utilizing an income approach. Additional consideration is given using a market based approach, as well as reviewing the overall underlying portfolio company's performance and associated financial risks. The following outlines additional details on the approaches considered:

Company Performance, Financial Review, and Analysis: Prior to investment, as part of its due diligence process, the Company evaluates the overall performance and financial stability of the portfolio company. Post investment, the Company analyzes each portfolio company's current operating performance and relevant financial trends versus prior year and budgeted results, including, but not limited to, factors affecting its revenue and earnings before interest, taxes, depreciation, and amortization ("EBITDA") growth, margin trends, liquidity position, covenant compliance and changes to its capital structure. The Company also attempts to identify and subsequently track any developments at the portfolio company, within its customer or vendor base or within the industry or the macroeconomic environment, generally, that may alter any material element of its original investment thesis. This analysis is specific to each portfolio company. The Company leverages the knowledge gained from its original due diligence process, augmented by this subsequent monitoring, to continually refine its outlook for each of its portfolio companies and ultimately form the valuation of its investment in each portfolio company. When an external event such as a purchase transaction, public offering or subsequent sale occurs, the Company will consider the pricing indicated by the external event to corroborate the private valuation.

For debt investments, the Company may employ the Market Based Approach (as described below) to assess the total enterprise value of the portfolio company, in order to evaluate the enterprise value coverage of the Company's debt investment. For equity investments or in cases where the Market Based Approach implies a lack of enterprise value coverage for the debt investment, the Company may additionally employ a discounted cash flow analysis based on the free cash flows of the portfolio company to assess the total enterprise value.

After enterprise value coverage is demonstrated for the Company's debt investments through the method(s) above, the Income Based Approach (as described below) may be employed to estimate the fair value of the investment.

Market Based Approach: The Company may estimate the total enterprise value of each portfolio company by utilizing market value cash flow (EBITDA) multiples of publicly traded comparable companies and comparable transactions. The Company considers numerous factors when selecting the appropriate companies whose trading multiples are used to value its portfolio companies. These factors include, but are not limited to, the type of organization, similarity to the business being valued, and relevant risk factors, as well as size, profitability and growth expectations. The Company may apply an average of various relevant comparable company EBITDA multiples to the portfolio company's latest twelve month ("LTM") EBITDA or projected EBITDA to calculate the enterprise value of the portfolio company. Significant increases or decreases in the EBITDA multiple will result in an increase or decrease in enterprise value, which may result in an increase or decrease in the fair value estimate of the investment. In applying the market based approach as of September 30, 2018 and December 31, 2017, the Company used the relevant EBITDA multiple ranges set forth in the table below to determine the enterprise value of its portfolio companies. The Company believes these were reasonable ranges in light of current comparable company trading levels and the specific portfolio companies involved.

Income Based Approach: The Company also may use a discounted cash flow analysis to estimate the fair value of the investment. Projected cash flows represent the relevant security's contractual interest, fee and principal payments plus the assumption of full principal recovery at the investment's expected maturity date. These cash flows are discounted at a rate established utilizing a yield calibration approach, which incorporates changes in the credit quality (as measured by relevant statistics) of the portfolio company, as compared to changes in the yield associated with comparable credit quality market indices, between the date of origination and the valuation date. Significant increases or decreases in the discount rate would result in a decrease or increase in the fair value measurement. In applying the income based approach as of September 30, 2018 and December 31, 2017, the Company used the discount ranges set forth in the table below to value investments in its portfolio companies.

Based on a comparison to similar BDC credit facilities, the terms and conditions of the Holdings Credit Facility and the NMFC Credit Facility (as defined in Note 7. *Borrowings*) are representative of market. The carrying values of the Holdings Credit Facility and NMFC Credit Facility approximate fair value as of September 30, 2018, as the facilities are continually monitored and examined by both the borrower and the lender and are considered Level III. The carrying value of the SBA-guaranteed debentures, the 2016 Unsecured Notes, the 2017A Unsecured Notes, the 2018A Unsecured Notes and the 2018B Unsecured Note (as defined in Note 7. *Borrowings*) approximate fair value as of September 30, 2018 based on a comparison of market interest rates for the Company's borrowings and similar entities and are considered Level III. The fair value of the Convertible Notes and the 5.75% Unsecured Notes (as defined in Note 7. *Borrowings*) as of September 30, 2018 was \$272,880 and \$50,000, respectively, which was based on quoted prices and considered Level II. See Note 7. *Borrowings*, for details. The carrying value of the collateralized agreement approximates fair value as of September 30, 2018 and is considered Level III. The fair value of other financial assets and liabilities approximates their carrying value based on the short-term nature of these items.

Fair value risk factors—The Company seeks investment opportunities that offer the possibility of attaining substantial capital appreciation. Certain events particular to each industry in which the Company's portfolio companies conduct their operations, as well as general economic and political conditions, may have a significant negative impact on the operations and profitability of the Company's investments and/or on the fair value of the Company's investments. The Company's investments are subject to the risk of non-payment of scheduled interest or principal, resulting in a reduction in income to the Company and their corresponding fair valuations. Also, there may be risk associated with the concentration of investments in one geographic region or in certain industries. These events are beyond the control of the Company and cannot be predicted. Furthermore, the ability to liquidate investments and realize value is subject to uncertainties.

Note 5. Agreements

The Company entered into an investment advisory and management agreement (the "Investment Management Agreement") with the Investment Adviser which was most recently re-approved by the Company's board of directors on February 7, 2018. Under the Investment Management Agreement, the Investment Adviser manages the day-to-day operations

[Table of Contents](#)

of, and provides investment advisory services to, the Company. For providing these services, the Investment Adviser receives a fee from the Company, consisting of two components—a base management fee and an incentive fee.

Pursuant to the Investment Management Agreement, the base management fee is calculated at an annual rate of 1.75% of the Company's gross assets, which equals the Company's total assets on the Consolidated Statements of Assets and Liabilities, less (i) the borrowings under the SLF Credit Facility (as defined below) and (ii) cash and cash equivalents. The base management fee is payable quarterly in arrears, and is calculated based on the average value of the Company's gross assets, which equals the Company's total assets, as determined in accordance with GAAP, less the borrowings under the SLF Credit Facility and cash and cash equivalents at the end of each of the two most recently completed calendar quarters, and appropriately adjusted on a pro rata basis for any equity capital raises or repurchases during the current calendar quarter. The Company has not invested, and currently is not invested, in derivatives. To the extent the Company invests in derivatives in the future, the Company will use the actual value of the derivatives, as reported on the Consolidated Statements of Assets and Liabilities, for purposes of calculating its base management fee.

Since the IPO, the base management fee calculation has deducted the borrowings under the New Mountain Finance SPV Funding, L.L.C. Loan and Security Agreement, as amended and restated, dated October 27, 2010 (the "SLF Credit Facility"). The SLF Credit Facility had historically consisted of primarily lower yielding assets at higher advance rates. As part of an amendment to the Company's existing credit facilities with Wells Fargo Bank, National Association, the SLF Credit Facility merged with the NMF Holdings Loan and Security Agreement, as amended and restated, dated May 19, 2011, and formed the Holdings Credit Facility on December 18, 2014 (as defined in Note 7. *Borrowings*). The amendment merged the credit facilities and combined the amount of borrowings previously available. Post credit facility merger and to be consistent with the methodology since the IPO, the Investment Adviser will continue to waive management fees on the leverage associated with those assets that share the same underlying yield characteristics with investments leveraged under the legacy SLF Credit Facility, which as of September 30, 2018 and September 30, 2017 was approximately \$446,587 and \$321,390, respectively. The Investment Adviser cannot recoup management fees that the Investment Adviser has previously waived. For the three and nine months ended September 30, 2018, management fees waived were approximately \$1,766 and \$4,583, respectively. For the three and nine months ended September 30, 2017, management fees waived were approximately \$1,483 and \$4,324, respectively.

The incentive fee consists of two parts. The first part is calculated and payable quarterly in arrears and equals 20.0% of the Company's "Pre-Incentive Fee Net Investment Income" for the immediately preceding quarter, subject to a "preferred return", or "hurdle", and a "catch-up" feature. "Pre-Incentive Fee Net Investment Income" means interest income, dividend income and any other income (including any other fees (other than fees for providing managerial assistance), such as commitment, origination, structuring, upfront, diligence and consulting fees or other fees that the Company receives from portfolio companies) accrued during the calendar quarter, minus the Company's operating expenses for the quarter (including the base management fee, expenses payable under an administration agreement, as amended and restated (the "Administration Agreement"), with the Administrator, and any interest expense and distributions paid on any issued and outstanding preferred stock (of which there are none as of September 30, 2018), but excluding the incentive fee). Pre-Incentive Fee Net Investment Income includes, in the case of investments with a deferred interest feature (such as original issue discount, debt instruments with PIK interest and zero coupon securities), accrued income that the Company has not yet received in cash. Pre-Incentive Fee Net Investment Income does not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation.

Pre-Incentive Fee Net Investment Income, expressed as a rate of return on the value of the Company's net assets at the end of the immediately preceding calendar quarter, will be compared to a "hurdle rate" of 2.0% per quarter (8.0% annualized), subject to a "catch-up" provision measured as of the end of each calendar quarter. The hurdle rate is appropriately pro-rated for any partial periods. The calculation of the Company's incentive fee with respect to the Pre-Incentive Fee Net Investment Income for each quarter is as follows:

- No incentive fee is payable to the Investment Adviser in any calendar quarter in which the Company's Pre-Incentive Fee Net Investment Income does not exceed the hurdle rate of 2.0% (the "preferred return" or "hurdle").
- 100.0% of the Company's Pre-Incentive Fee Net Investment Income with respect to that portion of such Pre-Incentive Fee Net Investment Income, if any, that exceeds the hurdle rate but is less than or equal to 2.5% in any calendar quarter (10.0% annualized) is payable to the Investment Adviser. This portion of the Company's Pre-Incentive Fee Net Investment Income (which exceeds the hurdle rate but is less than or equal to 2.5%) is referred to as the "catch-up". The catch-up provision is intended to provide the Investment Adviser with an incentive fee of 20.0% on all of the Company's Pre-Incentive Fee Net Investment Income as if a hurdle rate did not apply when the Company's Pre-Incentive Fee Net Investment Income exceeds 2.5% in any calendar quarter.

[Table of Contents](#)

- 20.0% of the amount of the Company's Pre-Incentive Fee Net Investment Income, if any, that exceeds 2.5% in any calendar quarter (10.0% annualized) is payable to the Investment Adviser once the hurdle is reached and the catch-up is achieved.

For the three and nine months ended September 30, 2018, no incentive fees were waived. For the three and nine months ended September 30, 2017, incentive fees waived were approximately \$0 and \$1,800, respectively. The Investment Adviser cannot recoup incentive fees that the Investment Adviser has previously waived.

The second part of the incentive fee will be determined and payable in arrears as of the end of each calendar year (or upon termination of the Investment Management Agreement) and will equal 20.0% of the Company's realized capital gains, if any, on a cumulative basis from inception through the end of each calendar year, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gain incentive fee.

In accordance with GAAP, the Company accrues a hypothetical capital gains incentive fee based upon the cumulative net realized capital gains and realized capital losses and the cumulative net unrealized capital appreciation and unrealized capital depreciation on investments held at the end of each period. Actual amounts paid to the Investment Adviser are consistent with the Investment Management Agreement and are based only on actual realized capital gains computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis from inception through the end of each calendar year as if the entire portfolio was sold at fair value.

The following table summarizes the management fees and incentive fees incurred by the Company for the three and nine months ended September 30, 2018 and September 30, 2017.

	Three Months Ended		Nine Months Ended	
	September 30, 2018	September 30, 2017	September 30, 2018	September 30, 2017

Total incentive fee	6,780	6,573	19,644	16,630

- (1) As of September 30, 2018 and September 30, 2017, no actual capital gains incentive fee was owed under the Investment Management Agreement by the Company, as cumulative net realized capital gains did not exceed cumulative unrealized capital depreciation.

The Company has entered into the Administration Agreement with the Administrator under which the Administrator provides administrative services. The Administrator maintains, or oversees the maintenance of, the Company's consolidated financial records, prepares reports filed with the United States Securities and Exchange Commission (the "SEC"), generally monitors the payment of the Company's expenses and oversees the performance of administrative and professional services rendered by others. The Company will reimburse the Administrator for the Company's allocable portion of overhead and other expenses incurred by the Administrator in performing its obligations to the Company under the Administration Agreement. Pursuant to the Administration Agreement and further restricted by the Company, the Administrator may, in its own discretion, submit to the Company for reimbursement some or all of the expenses that the Administrator has incurred on behalf of the Company during any quarterly period. As a result, the amount of expenses for which the Company will have to reimburse the Administrator may fluctuate in future quarterly periods and there can be no assurance given as to when, or if, the Administrator may determine to limit the expenses that the Administrator submits to the Company for reimbursement in the future. However, it is expected that the Administrator will continue to support part of the expense burden of the Company in the near future and may decide to not calculate and charge through certain overhead related amounts as well as continue to cover some of the indirect costs. The Administrator cannot recoup any expenses that the Administrator has previously waived. For the three and nine months ended September 30, 2018, approximately \$515 and \$1,725, respectively, of indirect administrative expenses were included in administrative expenses of which \$0 and \$276, respectively, of indirect administrative expenses were waived by the Administrator. For the three and nine months ended September 30, 2017, approximately \$361 and \$1,144, respectively, of indirect administrative expenses were included in administrative expenses, of which \$0 and \$416, respectively, of indirect

administrative expenses were waived by the Administrator. As of September 30, 2018 and December 31, 2017, approximately \$762 and \$444, respectively, of indirect administrative expenses were included in payable to affiliates.

The Company, the Investment Adviser and the Administrator have also entered into a Trademark License Agreement, as amended, with New Mountain Capital, pursuant to which New Mountain Capital has agreed to grant the Company, the Investment Adviser and the Administrator a non-exclusive, royalty-free license to use the “New Mountain” and the “New Mountain Finance” names. Under the Trademark License Agreement, as amended, subject to certain conditions, the Company, the Investment Adviser and the Administrator will have a right to use the “New Mountain” and “New Mountain Finance” names, for so long as the Investment Adviser or one of its affiliates remains the investment adviser of the Company. Other than with respect to this limited license, the Company, the Investment Adviser and the Administrator will have no legal right to the “New Mountain” or the “New Mountain Finance” names.

Note 6. Related Parties

The Company has entered into a number of business relationships with affiliated or related parties.

The Company has entered into the Investment Management Agreement with the Investment Adviser, a wholly-owned subsidiary of New Mountain Capital. Therefore, New Mountain Capital is entitled to any profits earned by the Investment Adviser, which includes any fees payable to the Investment Adviser under the terms of the Investment Management Agreement, less expenses incurred by the Investment Adviser in performing its services under the Investment Management Agreement.

The Company has entered into the Administration Agreement with the Administrator, a wholly-owned subsidiary of New Mountain Capital. The Administrator arranges office space for the Company and provides office equipment and administrative services necessary to conduct their respective day-to-day operations pursuant to the Administration Agreement. The Company reimburses the Administrator for the allocable portion of overhead and other expenses incurred by it in performing its obligations to the Company under the Administration Agreement, which includes the fees and expenses associated with performing administrative, finance and compliance functions, and the compensation of the Company’s chief financial officer and chief compliance officer and their respective staffs.

The Company, the Investment Adviser and the Administrator have entered into a royalty-free Trademark License Agreement, as amended, with New Mountain Capital, pursuant to which New Mountain Capital has agreed to grant the Company, the Investment Adviser and the Administrator a non-exclusive, royalty-free license to use the name “New Mountain” and “New Mountain Finance”.

The Company has adopted a formal code of ethics that governs the conduct of its officers and directors. These officers and directors also remain subject to the duties imposed by the 1940 Act, the Delaware General Corporation Law and the Delaware Limited Liability Company Act.

The Investment Adviser and its affiliates may also manage other funds in the future that may have investment mandates that are similar, in whole or in part, to the Company’s investment mandates. The Investment Adviser and its affiliates may determine that an investment is appropriate for the Company or for one or more of those other funds. In such event, depending on the availability of such investment and other appropriate factors, the Investment Adviser or its affiliates may determine that the Company should invest side-by-side with one or more other funds. Any such investments will be made only to the extent permitted by applicable law and interpretive positions of the SEC and its staff and consistent with the Investment Adviser’s allocation procedures. On December 18, 2017, the SEC issued an exemptive order (the “Exemptive Order”), which superseded a prior order issued on June 5, 2017, which permits the Company to co-invest in portfolio companies with certain funds or entities managed by the Investment Adviser or its affiliates in certain negotiated transactions where co-investing would otherwise be prohibited under the 1940 Act, subject to the conditions of the Exemptive Order. Pursuant to the Exemptive Order, the Company is permitted to co-invest with its affiliates if a “required majority” (as defined in Section 57(o) of the 1940 Act) of the Company’s independent directors make certain conclusions in connection with a co-investment transaction, including, but not limited to, that (1) the terms of the potential co-investment transaction, including the consideration to be paid, are reasonable and fair to the Company and its stockholders and do not involve overreaching in respect of the Company or its stockholders on the part of any person concerned, and (2) the potential co-investment transaction is consistent with the interests of the Company’s stockholders and is consistent with its then-current investment objective and strategies.

Note 7. Borrowings

On March 23, 2018, the Small Business Credit Availability Act (the “SBCA”) was signed into law, which included various changes to regulations under the federal securities laws that impact BDCs. The SBCA included changes to the 1940 Act to allow BDCs to decrease their asset coverage requirement to 150.0% from 200.0% under certain circumstances. On April 12, 2018, the Company’s board of directors, including a “required majority” (as such term is defined in Section 57(o) of the 1940 Act) approved the application of the modified asset coverage requirements set forth in Section 61(a)(2) of the 1940 Act, as amended by the SBCA, and recommended the submission of a proposal for stockholders to approve the application of the 150.0% minimum asset coverage ratio to the Company at a special meeting of stockholders, which was held on June 8, 2018.

[Table of Contents](#)

The stockholder proposal was approved by the required votes of the Company's stockholders at such special meeting of stockholders, and thus the Company became subject to the 150.0% minimum asset coverage ratio on June 9, 2018. As a result of the Company's exemptive relief received on November 5, 2014, the Company is permitted to exclude its SBA-guaranteed debentures from the 150.0% asset coverage ratio that the Company is required to maintain under the 1940 Act. The agreements governing the NMFC Credit Facility, the 2018 Convertible Notes and the Unsecured Notes (as defined below) contain certain covenants and terms, including a requirement that the Company not exceed a debt-to-equity ratio of 1.65 to 1.00 at the time of incurring additional indebtedness and a requirement that the Company not exceed a secured debt ratio of 0.70 to 1.00 at any time. As of September 30, 2018, the Company's asset coverage ratio was 185.7%.

Holdings Credit Facility—On December 18, 2014, the Company entered into the Second Amended and Restated Loan and Security Agreement, among the Company, as the Collateral Manager, NMF Holdings, as the Borrower, Wells Fargo Securities, LLC, as the Administrative Agent and Wells Fargo Bank, National Association, as the Lender and Collateral Custodian, which is structured as a revolving credit facility and matures on December 18, 2019. On October 24, 2017 the Company entered into the Third Amended and Restated Loan and Security Agreement (the "Holdings Credit Facility"), among the Company as the Collateral Manager, NMF Holdings as the Borrower and Wells Fargo Bank, National Association as the Administrative Agent and Collateral Custodian, which extended the maturity date to October 24, 2022.

The maximum amount of revolving borrowings available under the Holdings Credit Facility is \$495,000. Under the Holdings Credit Facility, NMF Holdings is permitted to borrow up to 25.0%, 45.0% or 70.0% of the purchase price of pledged assets, subject to approval by Wells Fargo Bank, National Association. The Holdings Credit Facility is non-recourse to the Company and is collateralized by all of the investments of NMF Holdings on an investment by investment basis. All fees associated with the origination or upsizing of the Holdings Credit Facility are capitalized on the Company's Consolidated Statement of Assets and Liabilities and charged against income as other financing expenses over the life of the Holdings Credit Facility. The Holdings Credit Facility contains certain customary affirmative and negative covenants and events of default. In addition, the Holdings Credit Facility requires the Company to maintain a minimum asset coverage ratio. The covenants are generally not tied to mark to market fluctuations in the prices of NMF Holdings investments, but rather to the performance of the underlying portfolio companies.

The Holdings Credit Facility bears interest at a rate of LIBOR plus 1.75% per annum for Broadly Syndicated Loans (as defined in the Loan and Security Agreement) and LIBOR plus 2.50% per annum for all other investments. Effective April 1, 2018, the Holdings Credit Facility bears interest at a rate of LIBOR plus 1.75% per annum for Broadly Syndicated Loans (as defined in the Loan and Security Agreement) and LIBOR plus 2.25% per annum for all other investments. The Holdings Credit Facility also charges a non-usage fee, based on the unused facility amount multiplied by the Non-Usage Fee Rate (as defined in the Loan and Security Agreement).

The following table summarizes the interest expense, non-usage fees and amortization of financing costs incurred on the Holdings Credit Facility for the three and nine months ended September 30, 2018 and September 30, 2017.

On July 5, 2018, the Company further amended the NMFC Credit Facility to include the financial covenants related to the asset coverage discussed above. The NMFC Credit Facility is guaranteed by certain domestic subsidiaries of the Company and proceeds from the NMFC Credit Facility may be used for general corporate purposes, including the funding of portfolio investments.

[Table of Contents](#)

As of September 30, 2018, the maximum amount of revolving borrowings available under the NMFC Credit Facility was \$135,000. The Company is permitted to borrow at various advance rates depending on the type of portfolio investment, as outlined in the Senior Secured Revolving Credit Agreement. All fees associated with the origination of the NMFC Credit Facility are capitalized on the Company's Consolidated Statement of Assets and Liabilities and charged against income as other financing expenses over the life of the NMFC Credit Facility. The NMFC Credit Facility contains certain customary affirmative and negative covenants and events of default, including certain financial covenants related to asset coverage and liquidity and other maintenance covenants.

The NMFC Credit Facility generally bears interest at a rate of LIBOR plus 2.50% per annum or the prime rate plus 1.50% per annum, and charges a commitment fee, based on the unused facility amount multiplied by 0.375% per annum (as defined in the Senior Secured Revolving Credit Agreement).

NMNL Credit Facility—The Revolving Credit Agreement (together with the related guarantee and security agreement, the “NMNL Credit Facility”), dated September 21, 2018, among NMNL, as the Borrower, and KeyBank National Association, as the Administrative Agent and Lender, is structured as a senior secured revolving credit facility and matures on September 23, 2019. Convertible Notes

2014 Convertible Notes—On June 3, 2014, the Company closed a private offering of \$115,000 aggregate principal amount of unsecured convertible notes (the “2014 Convertible Notes”), pursuant to an indenture, dated June 3, 2014 (the “2014 Indenture”). The 2014 Convertible Notes were issued in a private placement only to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended (the “Securities Act”). As of June 3, 2015, the restrictions under Rule 144A under the Securities Act were removed, allowing the 2014 Convertible Notes to be eligible and freely tradable without restrictions for resale pursuant to Rule 144(b)(1) under the Securities Act. On September 30, 2016, the Company closed a public offering of an additional \$40,250 aggregate principal amount of the 2014 Convertible Notes. These additional 2014 Convertible Notes constitute a further issuance of, rank equally in right of payment with, and form a single series with the \$115,000 aggregate principal amount of 2014 Convertible Notes that the Company issued on June 3, 2014.

The 2014 Convertible Notes bear interest at an annual rate of 5.0%, payable semi-annually in arrears on June 15 and December 15 of each year, which commenced on December 15, 2014. The 2014 Convertible Notes will mature on June 15, 2019 unless earlier converted or repurchased at the holder's option.

The Company may not redeem the 2014 Convertible Notes prior to maturity. No sinking fund is provided for the 2014 Convertible Notes. On September 30, 2016, the Company entered into an amended and restated note purchase agreement (the "NPA") and issued an additional \$40,000 in aggregate principal amount of 2016 Unsecured Notes to institutional investors in a private placement. On June 30, 2017, the Company issued \$55,000 in aggregate principal amount of five-year unsecured notes that mature on July 15, 2022 (the "2017A Unsecured Notes"), pursuant to the NPA and a supplement to the NPA. The 2016 Unsecured Notes bear interest at an annual rate of 5.313%, payable semi-annually on May 15 and November 15 of each year, which commenced on November 15, 2016. The 2017A Unsecured Notes bear interest at an annual rate of 4.760%, payable semi-annually on January 15 and July 15 of each year, which commenced on January 15, 2018. These interest rates are subject to increase in the event that: (i) subject to certain exceptions, the underlying unsecured notes or the Company ceases to have an investment grade rating or (ii) the aggregate amount of the Company's unsecured debt falls below \$150,000. In each such event, the Company has the option to offer to prepay the underlying unsecured notes at par, in which case holders of the underlying unsecured notes who accept the offer would not receive the increased interest rate. In addition, the Company is obligated to offer to prepay the underlying unsecured notes at par if the Investment Adviser, or an affiliate thereof, ceases to be the Company's investment adviser or if certain change in control events occur with respect to the Investment Adviser.

The NPA contains customary terms and conditions for unsecured notes issued in a private placement, including, without limitation, an option to offer to prepay all or a portion of the unsecured notes under its governance at par (plus a make-whole amount, if applicable), affirmative and negative covenants such as information reporting, maintenance of the Company's status as a BDC under the 1940 Act and a RIC under the Code, minimum stockholders' equity, minimum asset coverage ratio, and prohibitions on certain fundamental changes at the Company or any subsidiary guarantor, as well as customary events of default with customary cure and notice, including, without limitation, nonpayment, misrepresentation in a material respect,

breach of covenant, cross-default under other indebtedness of the Company or certain significant subsidiaries, certain judgments and orders, and certain events of bankruptcy. The Third Supplement includes additional financial covenants related to asset coverage as well as other terms.

On September 25, 2018, the Company closed a registered public offering of \$50,000 in aggregate principal amount of five-year unsecured notes that mature on October 1, 2023 (the "5.75% Unsecured Notes" and together with the 2016 Unsecured Notes, 2017A Unsecured Notes, 2018A Unsecured Notes and 2018B Unsecured Notes, the "Unsecured Notes") pursuant to an indenture, dated August 20, 2018, as supplemented by a second supplemental indenture thereto, dated September 25, 2018 (together, the "2018B Indenture").

No sinking fund is provided for the 5.75% Unsecured Notes and holders of the 5.75% Unsecured Notes have no option to have their 5.75% Unsecured Notes repaid prior to the stated maturity date.

The 2018B Indenture contains certain covenants, including covenants requiring the Company to (i) comply with the asset coverage requirements set forth in Section 18(a)(1)(A) of the 1940 Act as modified by Section 61(a)(1) of the 1940 Act as may be applicable to the Company from time to time or any successor provisions, whether or not the Company continues to be subject to such provisions of the 1940 Act, but giving effect, in either case, to any exemptive relief granted to the Company by the SEC and (ii) provide certain financial information to the holders of the 5.75% Unsecured Notes and the trustee if the Company ceases to be subject to the reporting requirements of the Exchange Act. The 2018B Indenture also includes additional financial covenants related to asset coverage. These covenants are subject to limitations and exceptions that are described in the 2018B Indenture.

The 2018B Indenture provides for customary events of default and further provides that the trustee or the holders of 25% in aggregate principal amount of the outstanding 5.75% Unsecured Notes may declare such 5.75% Unsecured Notes immediately due and payable upon the occurrence of any event of default after expiration of any applicable grace period.

The Unsecured Notes are unsecured obligations and rank senior in right of payment to the Company's existing and future indebtedness, if any, that is expressly subordinated in right of payment to the Unsecured Notes; equal in right of payment to the Company's existing and future unsecured indebtedness that is not so subordinated; effectively junior in right of payment to any of the Company's secured indebtedness (including existing unsecured indebtedness that the Company later secures) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by the Company's subsidiaries and financing vehicles.

SBA-guaranteed debentures—On August 1, 2014 and August 25, 2017, respectively, SBIC I and SBIC II received SBIC licenses from the SBA to operate as SBICs.

[Table of Contents](#)

The SBIC licenses allow SBICs to obtain leverage by issuing SBA-guaranteed debentures, subject to the issuance of a capital commitment by the SBA and other customary procedures. SBA-guaranteed debentures are non-recourse to the Company, interest only debentures with interest payable semi-annually and have a ten year maturity. The principal amount of SBA-guaranteed debentures is not required to be paid prior to maturity but may be prepaid at any time without penalty. The interest rate of SBA-guaranteed debentures is fixed on a semi-annual basis at a market-driven spread over U.S. Treasury Notes with ten year maturities. The SBA, as a creditor, will have a superior claim to the assets of SBIC I and SBIC II over the Company's stockholders in the event SBIC I and SBIC II are liquidated or the SBA exercises remedies upon an event of default.

The maximum amount of borrowings available under current SBA regulations for a single licensee is \$150,000 as long as the licensee has at least \$75,000 in regulatory capital, receives a capital commitment from the SBA and has been through an examination by the SBA subsequent to licensing. In June 2018, the U.S. Senate passed the Small Business Investment Opportunity Act, which the President signed into law, that amended the 1958 Act by increasing the individual leverage limit from \$150,000 to \$175,000, subject to SBA approvals.

As of September 30, 2018 and December 31, 2017, SBIC I had regulatory capital of \$75,000 and \$75,000, respectively, and SBA-guaranteed debentures outstanding of \$150,000 and \$150,000, respectively. As of September 30, 2018 and December 31, 2017, SBIC II had regulatory capital of \$42,500 and \$2,500, respectively, and \$15,000 and \$0, respectively, of SBA-guaranteed debentures outstanding. The SBA-guaranteed debentures incur upfront fees of 3.425%, which consists of a 1.00% commitment fee and a 2.425% issuance discount, which are amortized over the life of the SBA-guaranteed debentures. The following table summarizes the Company's SBA-guaranteed debentures as of September 30, 2018.

(1) SBA-guaranteed debentures are held in SBIC I.

(2) SBA-guaranteed debentures are held in SBIC II.

Prior to pooling, the SBA-guaranteed debentures bear interest at an interim floating rate of LIBOR plus 0.30%. Once pooled, which occurs in March and September each year, the SBA-guaranteed debentures bear interest at a fixed rate that is set to the current 10-year treasury rate plus a spread at each pooling date.

The following table summarizes the interest expense and amortization of financing costs incurred on the SBA-guaranteed debentures for the three and nine months ended September 30, 2018 and September 30, 2017.

The SBIC program is designed to stimulate the flow of private investor capital into eligible smaller businesses, as defined by the SBA. Under SBA regulations, SBICs are subject to regulatory requirements, including making investments in SBA-eligible businesses, investing at least 25.0% of its investment capital in eligible small businesses, as defined under the

1958 Act, placing certain limitations on the financing terms of investments, regulating the types of financing, prohibiting investments in small businesses with certain characteristics or in certain industries and requiring capitalization thresholds that limit distributions to the Company. SBICs are subject to an annual periodic examination by an SBA examiner to determine the SBIC's compliance with the relevant SBA regulations and an annual financial audit of its financial statements that are prepared on a basis of accounting other than GAAP (such as ASC 820) by an independent auditor. As of September 30, 2018 and December 31, 2017, SBIC I and SBIC II were in compliance with SBA regulatory requirements.

Note 13. Recent Accounting Standards Updates

In August 2018, the FASB issued Accounting Standards Update No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement* ("ASU 2018-13"). The standard will modify the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. ASU 2018-13 is effective for annual reporting periods beginning after December 15, 2019, including interim periods within that reporting period. Early adoption is permitted upon issuance of ASU 2018-13. The Company is permitted to early adopt any removed or modified disclosures upon issuance of ASU 2018-13 and delay adoption of the additional disclosures until their effective date. The Company is in the process of evaluating the impact that this guidance will have on the Company's consolidated financial statements and disclosures.

Note 14. Subsequent Events

The Company's management has evaluated subsequent events through the date of issuance of the consolidated financial statements included herein. There have been no subsequent events that occurred during such period that would require disclosure in this Form 10-Q or would be required to be recognized in the consolidated financial statements as of and for the nine months ended September 30, 2018, except as discussed below.

On October 17, 2018, in connection with the registered public offering, the Company issued an additional \$1,750 aggregate principal amount of the 5.75% Unsecured Notes pursuant to the exercise of an overallotment option by the underwriters of the 5.75% Unsecured Notes.

On November 1, 2018, the Company's board of directors declared a fourth quarter 2018 distribution of \$0.34 per share payable on December 28, 2018 to holders of record as of December 14, 2018.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the shareholders and the board of directors of New Mountain Finance Corporation

Results of Review of Interim Financial Information

We have reviewed the accompanying consolidated statement of assets and liabilities of New Mountain Finance Corporation and subsidiaries (the "Company"), including the consolidated schedule of investments, as of September 30, 2018, and the related consolidated statements of operations for the three-month and nine-month periods ended September 30, 2018 and 2017, and changes in net assets and cash flows for the nine-month periods ended September 30, 2018 and 2017, and the related notes (collectively referred to as the "interim financial information"). Based on our reviews, we are not aware of any material modifications that should be made to the accompanying interim financial information for it to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated statement of assets and liabilities of the Company, including the consolidated schedule of investments, as of December 31, 2017, and the related consolidated statements of operations, changes in net assets and cash flows for the year then ended (not presented herein); and in our report dated February 28, 2018, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated statement of assets and liabilities as of December 31, 2017, is fairly stated, in all material respects, in relation to the consolidated statement of assets and liabilities from which it has been derived.

Basis for Review Results

This interim financial information is the responsibility of the Company's management. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our reviews in accordance with standards of the PCAOB. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the PCAOB, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Overview

We are a Delaware corporation that was originally incorporated on June 29, 2010 and completed our initial public offering ("IPO") on May 19, 2011. We are a closed-end, non-diversified management investment company that has elected to be regulated as a business development company ("BDC") under the Investment Company Act of 1940, as amended (the "1940 Act"). We have elected to be treated, and intend to comply with the requirements to continue to qualify annually, as a regulated investment company ("RIC") under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"). NMFC is also registered as an investment adviser under the Investment Advisers Act of 1940, as amended (the "Advisers Act"). Since our IPO, and through September 30, 2018, we raised approximately \$614.6 million in net proceeds from additional offerings of common stock.

The Investment Adviser is a wholly-owned subsidiary of New Mountain Capital. New Mountain Capital is a firm with a track record of investing in the middle market. New Mountain Capital focuses on investing in defensive growth companies across its private equity, public equity and credit investment vehicles. The Investment Adviser manages our day-to-day operations and provides us with investment advisory and management services. New Mountain Finance Administration, L.L.C. (the "Administrator"), a wholly-owned subsidiary of New Mountain Capital, provides the administrative services necessary to conduct our day-to-day operations.

Our wholly-owned subsidiary, New Mountain Finance Holdings, L.L.C. ("NMF Holdings"), is a Delaware limited liability company whose assets are used to secure NMF Holdings' credit facility. NMF Ancora Holdings Inc. ("NMF Ancora"), NMF QID NGL Holdings, Inc. ("NMF QID") and NMF YP Holdings Inc. ("NMF YP"), our wholly-owned subsidiaries, are structured as Delaware entities that serve as tax blocker corporations which hold equity or equity-like investments in portfolio companies organized as limited liability companies (or other forms of pass-through entities). We consolidate our tax blocker corporations for accounting purposes. The tax blocker corporations are not consolidated for income tax purposes and may incur income tax expense as a result of their ownership of the portfolio companies. Additionally, our wholly-owned subsidiary, New Mountain Finance Servicing, L.L.C. ("NMF Servicing"), serves as the administrative agent on certain investment transactions. New Mountain Finance SBIC, L.P. ("SBIC I") and its general partner, New Mountain Finance SBIC G.P., L.L.C. ("SBIC I GP"), were organized in Delaware as a limited partnership and limited liability company, respectively. New Mountain Finance SBIC II, L.P. ("SBIC II") and its general partner, New Mountain Finance SBIC II G.P., L.L.C. ("SBIC II GP"), were also organized in Delaware as a limited partnership and limited liability company, respectively. SBIC I, SBIC I GP, SBIC II and SBIC II GP are our consolidated wholly-owned direct and indirect subsidiaries. SBIC I and SBIC II received licenses from the United States ("U.S.") Small Business Administration (the "SBA") to operate as a small business investment company ("SBIC") under Section 301(c) of the Small Business Investment Act of 1958, as amended (the "1958 Act"). Our wholly-owned subsidiary, New Mountain Net Lease Corporation ("NMNLC"), a Maryland corporation, was formed to acquire commercial real properties that are subject to "triple net" leases and intends to qualify as a real estate investment trust, or REIT, within the meaning of Section 856(a) of the Code.

Our investment objective is to generate current income and capital appreciation through the sourcing and origination of debt securities at all levels of the capital structure, including first and second lien debt, notes, bonds and mezzanine securities. The first lien debt may include traditional first lien senior secured loans or unitranche loans. Unitranche loans combine characteristics of traditional first lien senior secured loans as well as second lien and subordinated loans. Unitranche loans will expose us to the risks associated with second lien and subordinated loans to the extent we invest in the "last out" tranche. In some cases, our investments may also include equity interests.

Our primary focus is in the debt of defensive growth companies, which are defined as generally exhibiting the following characteristics: (i) sustainable secular growth drivers, (ii) high barriers to competitive entry, (iii) high free cash flow after capital expenditure and working capital needs, (iv) high returns on assets and (v) niche market dominance. Similar to us, SBIC I's and SBIC II's investment objectives are to generate current income and capital appreciation under our investment criteria. However, SBIC I's and SBIC II's investments must be in SBA eligible small businesses. Our portfolio may be concentrated in a limited number of industries. As of September 30, 2018, our top five industry concentrations were business services, software, healthcare services, education and investment funds.

As of September 30, 2018, our net asset value was \$1,033.5 million and our portfolio had a fair value of approximately \$2,294.8 million in 92 portfolio companies, with a weighted average yield to maturity at cost for income producing investments ("YTM at Cost") of approximately 11.0% and a weighted average yield to maturity at cost for all investments ("YTM at Cost for Investments") of approximately 10.9%. The YTM at Cost calculation assumes that all investments, including secured collateralized agreements, not on non-accrual are purchased at cost on the quarter end date and held until their respective maturities with no prepayments or losses and exited at par at maturity. The YTM at Cost for Investments calculation assumes that all investments, including secured collateralized agreements, are purchased as cost on the quarter end date and held until their respective maturities with no prepayments or losses and exited at par at maturity. YTM at Cost and YTM at Cost for Investments calculations exclude the impact of existing leverage. YTM at Cost and YTM at Cost for Investments uses the London Interbank Offered Rate ("LIBOR") curves at each quarter's end date. The actual yield to maturity may be higher or lower due to the future selection of the LIBOR contracts by the individual companies in our portfolio or other factors.

Recent Developments

On October 17, 2018, in connection with the registered public offering, we issued an additional \$1.8 million aggregate principal amount of five-year unsecured notes that mature on October 1, 2023 (the "5.75% Unsecured Notes") pursuant to the exercise of an overallotment option by the underwriters of the 5.75% Unsecured Notes.

On November 1, 2018, our board of directors declared a fourth quarter 2018 distribution of \$0.34 per share payable on December 28, 2018 to holders of record as of December 14, 2018.

Critical Accounting Policies

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements,

and revenues and expenses during the periods reported. Actual results could materially differ from those estimates. We have identified the following items as critical accounting policies.

Basis of Accounting

We consolidate our wholly-owned direct and indirect subsidiaries: NMF Holdings, NMF Servicing, NMNLC, SBIC I, SBIC I GP, SBIC II, SBIC II GP, NMF Ancora, NMF QID and NMF YP. We are an investment company following accounting and reporting guidance as described in Accounting Standards Codification Topic 946, *Financial Services—Investment Companies*, ("ASC 946").

Valuation and Leveling of Portfolio Investments

At all times consistent with GAAP and the 1940 Act, we conduct a valuation of assets, which impacts our net asset value.

We value our assets on a quarterly basis, or more frequently if required under the 1940 Act. In all cases, our board of directors is ultimately and solely responsible for determining the fair value of our portfolio investments on a quarterly basis in good faith, including investments that are not publicly traded, those whose market prices are not readily available and any other situation where our portfolio investments require a fair value determination. Security transactions are accounted for on a trade date basis. Our quarterly valuation procedures are set forth in more detail below:

- (1) Investments for which market quotations are readily available on an exchange are valued at such market quotations based on the closing price indicated from independent pricing services.
- (2) Investments for which indicative prices are obtained from various pricing services and/or brokers or dealers are valued through a multi-step valuation process, as described below, to determine whether the quote(s) obtained is representative of fair value in accordance with GAAP.
 - a. Bond quotes are obtained through independent pricing services. Internal reviews are performed by the investment professionals of the Investment Adviser to ensure that the quote obtained is representative of fair value in accordance with GAAP and, if so, the quote is used. If the Investment Adviser is unable to sufficiently validate the quote(s) internally and if the investment's par value or its fair value exceeds the materiality threshold, the investment is valued similarly to those assets with no readily available quotes (see (3) below); and
 - b. For investments other than bonds, we look at the number of quotes readily available and perform the following procedures:
 - i. Investments for which two or more quotes are received from a pricing service are valued using the mean of the mean of the bid and ask of the quotes obtained;
 - ii. Investments for which one quote is received from a pricing service are validated internally. The investment professionals of the Investment Adviser analyze the market quotes obtained using an array of valuation methods (further described below) to validate the fair value. If the Investment Adviser is unable to sufficiently validate the quote internally and if the investment's par value or its fair value exceeds the materiality threshold, the investment is valued similarly to those assets with no readily available quotes (see (3) below).
- (3) Investments for which quotations are not readily available through exchanges, pricing services, brokers, or dealers are valued through a multi-step valuation process:
 - a. Each portfolio company or investment is initially valued by the investment professionals of the Investment Adviser responsible for the credit monitoring;
 - b. Preliminary valuation conclusions will then be documented and discussed with our senior management;
 - c. If an investment falls into (3) above for four consecutive quarters and if the investment's par value or its fair value exceeds the materiality threshold, then at least once each fiscal year, the valuation for each portfolio investment for which we do not have a readily available market quotation will be reviewed by an independent valuation firm engaged by our board of directors; and
 - d. When deemed appropriate by our management, an independent valuation firm may be engaged to review and value investment(s) of a portfolio company, without any preliminary valuation being performed by the Investment Adviser. The investment professionals of the Investment Adviser will review and validate the value provided.

For investments in revolving credit facilities and delayed draw commitments, the cost basis of the funded investments purchased is offset by any costs/netbacks received for any unfunded portion on the total balance committed. The fair value is also adjusted for the price appreciation or depreciation on the unfunded portion. As a result, the purchase of a commitment not completely funded may result in a negative fair value until it is called and funded.

The values assigned to investments are based upon available information and do not necessarily represent amounts which might ultimately be realized, since such amounts depend on future circumstances and cannot be reasonably determined until the individual positions are liquidated. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may fluctuate from period to period and the fluctuations could be material.

GAAP fair value measurement guidance classifies the inputs used in measuring fair value into three levels as follows:

Level I—Quoted prices (unadjusted) are available in active markets for identical investments and we have the ability to access such quotes as of the reporting date. The type of investments which would generally be included in Level I include active exchange-traded equity securities and exchange-traded derivatives. As required by Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosures* ("ASC 820"), we, to the extent that we hold such investments, do not adjust the quoted price for these investments, even in situations where we hold a large position and a sale could reasonably impact the quoted price.

Level II—Pricing inputs are observable for the investments, either directly or indirectly, as of the reporting date, but are not the same as those used in Level I. Level II inputs include the following:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in non-active markets (examples include corporate and municipal bonds, which trade infrequently);
- Pricing models whose inputs are observable for substantially the full term of the asset or liability (examples include most over-the-counter derivatives, including foreign exchange forward contracts); and
- Pricing models whose inputs are derived principally from or corroborated by observable market data through correlation or other means for substantially the full term of the asset or liability.

Level III—Pricing inputs are unobservable for the investment and include situations where there is little, if any, market activity for the investment.

The inputs used to measure fair value may fall into different levels. In all instances when the inputs fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level of input that is significant to the fair value measurement in its entirety. As such, a Level III fair value measurement may include inputs that are both observable and unobservable. Gains and losses for such assets categorized within the Level III table below may include changes in fair value that are attributable to both observable inputs and unobservable inputs.

The inputs into the determination of fair value require significant judgment or estimation by management and consideration of factors specific to each investment. A review of the fair value hierarchy classifications is conducted on a quarterly basis. Changes in the observability of valuation inputs may result in the transfer of certain investments within the fair value hierarchy from period to period. Reclassifications impacting the fair value hierarchy are reported as transfers in/out of the respective leveling categories as of the beginning of the period in which the reclassifications occur.

The following table summarizes the levels in the fair value hierarchy that our portfolio investments fall into as of September 30, 2018:

(in thousands)	Total	Level I	Level II	Level III
First lien	\$ 1,030,033	\$ —	\$ 143,479	\$ 886,554
Second lien	681,910	—	358,727	323,183
Subordinated	64,606	—	26,262	38,344
Equity and other	518,210	6	—	518,204
Total investments	\$ 2,294,759	\$ 6	\$ 528,468	\$ 1,766,285

We generally use the following framework when determining the fair value of investments where there are little, if any, market activity or observable pricing inputs. We typically determine the fair value of our performing debt investments utilizing an income approach. Additional consideration is given using a market based approach, as well as reviewing the overall

underlying portfolio company's performance and associated financial risks. The following outlines additional details on the approaches considered:

Company Performance, Financial Review, and Analysis: Prior to investment, as part of our due diligence process, we evaluate the overall performance and financial stability of the portfolio company. Post investment, we analyze each portfolio company's current operating performance and relevant financial trends versus prior year and budgeted results, including, but not limited to, factors affecting its revenue and earnings before interest, taxes, depreciation, and amortization ("EBITDA") growth, margin trends, liquidity position, covenant compliance and changes to its capital structure. We also attempt to identify and subsequently track any developments at the portfolio company, within its customer or vendor base or within the industry or the macroeconomic environment, generally, that may alter any material element of our original investment thesis. This analysis is specific to each portfolio company. We leverage the knowledge gained from our original due diligence process, augmented by this subsequent monitoring, to continually refine our outlook for each of our portfolio companies and ultimately form the valuation of our investment in each portfolio company. When an external event such as a purchase transaction, public offering or subsequent sale occurs, we will consider the pricing indicated by the external event to corroborate the private valuation.

For debt investments, we may employ the Market Based Approach (as described below) to assess the total enterprise value of the portfolio company, in order to evaluate the enterprise value coverage of our debt investment. For equity investments or in cases where the Market Based Approach implies a lack of enterprise value coverage for the debt investment, we may additionally employ a discounted cash flow analysis based on the free cash flows of the portfolio company to assess the total enterprise value.

After enterprise value coverage is demonstrated for our debt investments through the method(s) above, the Income Based Approach (as described below) may be employed to estimate the fair value of the investment.

Market Based Approach: We may estimate the total enterprise value of each portfolio company by utilizing market value cash flow (EBITDA) multiples of publicly traded comparable companies and comparable transactions. We consider numerous factors when selecting the appropriate companies whose trading multiples are used to value our portfolio companies. These factors include, but are not limited to, the type of organization, similarity to the business being valued, and relevant risk factors, as well as size, profitability and growth expectations. We may apply an average of various relevant comparable company EBITDA multiples to the portfolio company's latest twelve month ("LTM") EBITDA or projected EBITDA to calculate the enterprise value of the portfolio company. Significant increases or decreases in the EBITDA multiple will result in an increase or decrease in enterprise value, which may result in an increase or decrease in the fair value estimate of the investment. In applying the market based approach as of September 30, 2018, we used the relevant EBITDA multiple ranges set forth in the table below to determine the enterprise value of our portfolio companies. We believe these were reasonable ranges in light of current comparable company trading levels and the specific portfolio companies involved.

Income Based Approach: We also may use a discounted cash flow analysis to estimate the fair value of the investment. Projected cash flows represent the relevant security's contractual interest, fee and principal payments plus the assumption of full principal recovery at the investment's expected maturity date. These cash flows are discounted at a rate established utilizing a yield calibration approach, which incorporates changes in the credit quality (as measured by relevant statistics) of the portfolio company, as compared to changes in the yield associated with comparable credit quality market indices, between the date of origination and the valuation date. Significant increases or decreases in the discount rate would result in a decrease or increase in the fair value measurement. In applying the income based approach as of September 30, 2018, we used the discount ranges set forth in the table below to value investments in our portfolio companies.

The unobservable inputs used in the fair value measurement of our Level III investments as of September 30, 2018 were as follows:

- (1) All interest is payable in cash unless otherwise indicated. A majority of the variable rate debt investments bear interest at a rate that may be determined by reference to the LIBOR (L), the Prime Rate (P) and the alternative base rate (Base). For each investment, the current interest rate provided reflects the rate in effect as of September 30, 2018.

For the three and nine months ended September 30, 2018, we earned approximately \$1.0 million and \$1.0 million, respectively, of dividend income related to SLP III, which is included in dividend income. As of September 30, 2018, approximately \$1.0 million of dividend income related to SLP III was included in interest and dividend receivable.

We have determined that SLP III is an investment company under ASC 946; however, in accordance with such guidance we will generally not consolidate our investment in a company other than a wholly-owned investment company subsidiary. Furthermore, ASC 810 concludes that in a joint venture where both members have equal decision making authority, it is not appropriate for one member to consolidate the joint venture since neither has control. Accordingly, we do not consolidate SLP III.

Collateralized agreements or repurchase financings

We follow the guidance in Accounting Standards Codification Topic 860, *Transfers and Servicing—Secured Borrowing and Collateral*, (“ASC 860”) when accounting for transactions involving the purchases of securities under collateralized agreements to resell (resale agreements). These transactions are treated as collateralized financing transactions and are recorded at their contracted resale or repurchase amounts, as specified in the respective agreements. Interest on collateralized agreements is accrued and recognized over the life of the transaction and included in interest income. As of September 30, 2018 and December 31, 2017, we held one collateralized agreement to resell with a cost basis of \$30.0 million and \$30.0 million, respectively, and a fair value of \$25.2 million and \$25.2 million, respectively. The collateralized agreement to resell is guaranteed by a private hedge fund. The private hedge fund is currently in liquidation under the laws of the Cayman Islands. Pursuant to the terms of the collateralized agreement, the private hedge fund was obligated to repurchase the collateral from us at the par value of the collateralized agreement. The private hedge fund has breached its agreement to repurchase the collateral under the collateralized agreement. The default by the private hedge fund did not release the collateral to us, therefore, we do not have full rights and title to the collateral. A claim has been filed with the Cayman Islands joint official liquidators to resolve this matter. The joint official liquidators have recognized our contractual rights under the collateralized agreement. We continue to exercise our rights under the collateralized agreement and continue to monitor the liquidation process of the private hedge fund. The fair value of the collateralized agreement to resell is reflective of the increased risk of the position.

PPVA Black Elk (Equity) LLC

On May 3, 2013, we entered into a collateralized securities purchase and put agreement (the “SPP Agreement”) with a private hedge fund. Under the SPP Agreement, we purchased twenty million Class E Preferred Units of Black Elk Energy Offshore Operations, LLC (“Black Elk”) for \$20.0 million with a corresponding obligation of the private hedge fund to repurchase the preferred units for \$20.0 million plus other amounts due under the SPP Agreement. The majority owner of Black Elk was the private hedge fund. In August 2014, we received a payment of \$20.5 million, the full amount due under the SPP Agreement.

In August 2017, a trustee (the “Trustee”) for Black Elk informed us that the Trustee intended to assert a fraudulent conveyance claim (the “Claim”) against us and one of its affiliates seeking the return of the \$20.5 million repayment. Black Elk filed a Chapter 11 bankruptcy petition pursuant to the United States Bankruptcy Code in August 2015. The Trustee alleges that individuals affiliated with the private hedge fund conspired with Black Elk and others to improperly use proceeds from the sale of certain Black Elk assets to repay, in August 2014, the private hedge fund’s obligation to us under the SPP Agreement. We were unaware of these claims at the time the repayment was received. The private hedge fund is currently in liquidation under the laws of the Cayman Islands.

On December 22, 2017, we settled the Trustee’s \$20.5 million Claim for \$16.0 million and filed a claim with the Cayman Islands joint official liquidators of the private hedge fund for \$16.0 million that is owed to us under the SPP

Table of Contents

Agreement. The SPP Agreement was restored and is in effect since repayment has not been made. We continue to exercise our rights under the SPP Agreement and continue to monitor the liquidation process of the private hedge fund. During the nine months ended September 30, 2018, we received a \$1.5 million payment from our insurance carrier in respect to the settlement. As of September 30, 2018, the SPP Agreement has a cost basis of \$14.5 million and a fair value of \$12.2 million, which is reflective of the higher inherent risk in this transaction.

Revenue Recognition

Sales and paydowns of investments: Realized gains and losses on investments are determined on the specific identification method.

Interest and dividend income: Interest income, including amortization of premium and discount using the effective interest method, is recorded on the accrual basis and periodically assessed for collectability. Interest income also includes interest earned from cash on hand. Upon the prepayment of a loan or debt security, any prepayment penalties are recorded as part of interest income. We have loans and certain preferred equity investments in the portfolio that contain a payment-in-kind (“PIK”) interest or dividend provision. PIK interest and dividends are accrued and recorded as income at the contractual rates, if deemed collectible. The PIK interest and dividends are added to the principal or share balances on the capitalization dates and generally due at maturity or when redeemed by the issuer. For the three and nine months ended September 30, 2018, we recognized PIK and non-cash interest from investments of approximately \$2.5 million and \$6.1 million, respectively, and PIK and non-cash dividends from investments of approximately \$7.2 million and \$21.0 million, respectively. For the three and nine months ended September 30, 2017, we recognized PIK and non-cash interest from investments of approximately \$1.5 million and \$4.7 million, respectively, and PIK and non-cash dividends from investments of approximately \$5.4 million and \$11.7 million, respectively.

Dividend income on common equity is recorded on the record date for private portfolio companies or on the ex-dividend date for publicly traded portfolio companies. Dividend income on preferred securities is recorded as dividend income on an accrual basis to the extent that such amounts are deemed collectible.

Non-accrual income: Investments are placed on non-accrual status when principal or interest payments are past due for 30 days or more and when there is reasonable doubt that principal or interest will be collected. Accrued cash and un-capitalized PIK interest or dividends are reversed when an investment is placed on non-accrual status. Previously capitalized PIK interest or dividends are not reversed when an investment is placed on non-accrual status. Interest or dividend payments received on non-accrual investments may be recognized as income or applied to principal depending upon management’s judgment of the ultimate outcome. Non-accrual investments are restored to accrual status when past due principal and interest is paid and, in management’s judgment, are likely to remain current.

Other income: Other income represents delayed compensation, consent or amendment fees, revolver fees, structuring fees, upfront fees, management fees from a non-controlled/affiliated investment and other miscellaneous fees received and are typically non-recurring in nature. Delayed compensation is income earned from counterparties on trades that do not settle within a set number of business days after trade date. Other income may also include fees from bridge loans. We may from time to time enter into bridge financing commitments, an obligation to provide interim financing to a counterparty until permanent credit can be obtained. These commitments are short-term in nature and may expire unfunded. A fee is received for providing such commitments. Structuring fees and upfront fees are recognized as income when earned, usually when paid at the closing of the investment, and are non-refundable.

Monitoring of Portfolio Investments

We monitor the performance and financial trends of our portfolio companies on at least a quarterly basis. We attempt to identify any developments within the portfolio company, the industry or the macroeconomic environment that may alter any material element of our original investment strategy.

We use an investment rating system to characterize and monitor the credit profile and expected level of returns on each investment in the portfolio. We use a four-level numeric rating scale as follows:

- Investment Rating 1—Investment is performing materially above expectations;
- Investment Rating 2—Investment is performing materially in-line with expectations. All new loans are rated 2 at initial purchase;
- Investment Rating 3—Investment is performing materially below expectations and while significant loss is not expected, the risk of loss has increased since the original investment; and
- Investment Rating 4—Investment is performing substantially below expectations and risks have increased substantially since the original investment. Payments may be delinquent. There is meaningful possibility that we will not recoup our original cost basis in the investment and may realize a substantial loss upon exit.

As of September 30, 2018, our investment in the second lien position in NHME had an aggregate cost basis of \$28.5 million an aggregate fair value of \$13.7 million and total unearned interest income of \$0.4 million and \$0.8 million, respectively, for the three and nine months then ended.

During the first quarter of 2018, we placed our first lien positions in Education Management II LLC on non-accrual status as the portfolio company announced its intention to wind down and liquidate the business. Our first lien positions and our preferred and commons shares in Education Management Corporation ("EDMC") have an investment rating of 4. As of September 30, 2018, our investments in EDMC with an Investment Rating of 4 had an aggregate cost basis of \$1.5 million, an aggregate fair value of less than \$0.1 million and total unearned interest income of less than \$0.1 million and \$0.1 million, respectively, for the three and nine months then ended.

Results of Operations for the Three Months Ended September 30, 2018 and September 30, 2017

Revenue

(in thousands)	Three Months Ended	
	September 30, 2018	September 30, 2017

Total dividend income	13,948	9,870
Other income	5,601	1,728
Total investment income	\$ 60,469	\$ 51,236

Our total investment income increased by approximately \$9.2 million for the three months ended September 30, 2018 as compared to the three months ended September 30, 2017. For the three months ended September 30, 2018, total investment income of \$60.5 million consisted of approximately \$35.1 million in cash interest from investments, approximately \$2.5 million in PIK and non-cash interest from investments, approximately \$2.0 million in prepayment fees, net amortization of purchase premiums and discounts of approximately \$1.3 million, approximately \$6.8 million in cash dividends from investments, \$7.2 million in PIK and non-cash dividends from investments and approximately \$5.6 million in other income. The 18% increase in total investment income resulted primarily from increased dividend income and other income. The increase in dividend income of approximately \$4.1 million during the three months ended September 30, 2018 as compared to the three months ended September 30, 2017 is primarily due to distributions from our investments in NMNLC, SLP III and PIK and non-cash dividend income from five equity positions. In addition, our increase in interest and dividend income was attributable to larger invested balances which were driven by proceeds from our convertible notes and our unsecured notes issuances to originate new investments as well as rising LIBOR rates. Other income during the three months ended September 30, 2018, which represents fees that are generally non-recurring in nature, was primarily attributable to upfront, amendment and consent fees received from nineteen different portfolio companies and management fees from a non-controlled affiliated portfolio company.

Net expenses before income taxes	33,127	24,838
Income tax expense	225	106
Net expenses after income taxes	\$ 33,352	\$ 24,944

Our total net operating expenses increased by approximately \$8.4 million for the three months ended September 30, 2018 as compared to the three months ended September 30, 2017. Our management fee increased by approximately \$1.3 million, net of a management fee waivers for the three months ended September 30, 2018, as compared to the three months ended September 30, 2017. The increase in management fees was attributable to larger invested balances, driven by the proceeds from our convertible notes issuances and unsecured notes issuances as well as our use of leverage from our revolving credit facilities and SBA-guaranteed debentures to originate new investments.

Interest and other financing expenses increased by approximately \$5.3 million during the three months ended September 30, 2018 as compared to the three months ended September 30, 2017, primarily due to our issuances of our unsecured notes, higher drawn balances on our SBA-guaranteed debentures and NMFC Credit Facility (as defined below) and

rising LIBOR rates. Our increase in total professional fees, administrative expenses and total other general and administrative expenses for the three months ended September 30, 2018 as compared to the three months ended September 30, 2017 was mainly attributable to the professional fees incurred relating to evaluating and making investments, as well as on-going monitoring of our investments.

Net Realized Gains (Losses) and Net Change in Unrealized Appreciation (Depreciation)

(in thousands)	Three Months Ended	
	September 30, 2018	September 30, 2017
Net realized gains (losses) on investments	\$ 3,254	\$ (14,216)

Provision for taxes	(2)	(394)
Net realized and unrealized gains (losses)	\$ (357)	\$ (1,516)

Our net realized gains and unrealized losses resulted in a net loss of approximately \$0.4 million for the three months ended September 30, 2018 compared to net realized losses and unrealized gains resulting in a net loss of approximately \$1.5 million for the same period in 2017. As movement in unrealized appreciation or depreciation can be the result of realizations, we look at net realized and unrealized gains or losses together. The net loss for the three months ended September 30, 2018 was primarily driven by and overall decrease in the market prices of our investments during the period, which was partially offset by a realized gain on the sale of our investment in TWDiamondback Holdings Corp. The provision for income taxes was attributable to equity investments that are held as of September 30, 2018 in three of our corporate subsidiaries. The net loss for the three months ended September 30, 2017 was primarily driven by unrealized depreciation on our securities purchased under collateralized agreements to resell. With the completion of the Sierra Hamilton LLC / Sierra Hamilton Finance, Inc. ("Sierra") restructuring in July 2017, \$14.5 million of previously recorded unrealized depreciation related to this investment was realized during the three months ended September 30, 2017.

Results of Operations for the Nine Months Ended September 30, 2018 and September 30, 2017

Revenue

(in thousands)	Nine Months Ended	
	September 30, 2018	September 30, 2017
Interest income	\$ 117,749	\$ 111,275
Total dividend income	38,651	26,273
Other income	11,556	7,014
Total investment income	\$ 167,956	\$ 144,562

Our total investment income increased by approximately \$23.4 million for the nine months ended September 30, 2018 as compared to the nine months ended September 30, 2017. For the nine months ended September 30, 2018, total investment income of \$168.0 million consisted of approximately \$103.4 million in cash interest from investments, approximately \$6.1 million in PIK and non-cash interest from investments, approximately \$4.3 million in prepayment fees, net amortization of purchase premiums and discounts of approximately \$3.9 million, approximately \$17.7 million in cash dividends from investments, approximately \$21.0 million in PIK and non-cash dividends from investments and approximately \$11.6 million in other income. The 16% increase in total investment income primarily resulted from an increase in dividend income of approximately \$12.4 million during the nine months ended September 30, 2018 as compared to the nine months ended September 30, 2017. The increase was primarily due to distributions from our investments in NMNLC, SLP III and PIK and non-cash dividend income from five equity positions. Also contributing to the increase in total investment income is the increased interest income which is attributable to larger invested balances and rising LIBOR rates. Our larger invested balances were driven by the proceeds from our August 2018 Convertible Notes issuance and our July 2018 and January 2018 unsecured notes issuances to originate new investments. Other income during the nine months ended September 30, 2018, which represents fees that are generally non-recurring in nature, was primarily attributable to upfront, amendment and consent fees received from thirty-eight different portfolio companies and management fees from a non-controlled affiliated portfolio company.

Our total net operating expenses increased by approximately \$20.3 million for the nine months ended September 30, 2018 as compared to the nine months ended September 30, 2017. Our management fee increased by approximately \$3.4 million, net of a management fee waiver, and our incentive fee increased by approximately \$3.0 million, net of an incentive fee waiver, for the nine months ended September 30, 2018 as compared to the nine months ended September 30, 2017. The increase in management fees and incentive fees was attributable to larger invested balances, driven by the proceeds from our April 2017 primary offering of our common stock, our convertible notes issuance, our unsecured notes issuances and our use of leverage from our revolving credit facilities and SBA-guaranteed debentures to originate new investments. In addition, our increase in incentive fees was attributable to an incentive fee waiver by the Investment Adviser for the nine months ended September 30, 2017 of approximately \$1.8 million.

Interest and other financing expenses increased by approximately \$11.9 million during the nine months ended September 30, 2018 as compared to the nine months ended September 30, 2017, primarily due to our issuances of convertible and unsecured notes, higher drawn balances on our SBA-guaranteed debentures and NMFC Credit Facility (as defined below) and rising LIBOR rates. Our increase in total professional fees, administrative expenses and total other general and administrative expenses for the nine months ended September 30, 2018 as compared to the nine months ended September 30, 2017 was mainly attributable to an increase in professional fees relating to evaluating and making investments, as well as on-going monitoring of our investments.

Net Realized Gains (Losses) and Net Change in Unrealized Appreciation (Depreciation)

(in thousands)	Nine Months Ended	
	September 30, 2018	September 30, 2017
Net realized losses on investments	\$ (3,149)	\$ (39,843)
Net change in unrealized appreciation (depreciation) of investments	(690)	48,700
Net change in unrealized depreciation securities purchased under collateralized agreements to resell	(12)	(2,382)
(Provision) benefit for taxes	(986)	525
Net realized and unrealized gains (losses)	\$ (4,837)	\$ 7,000

Our net realized and unrealized losses resulted in a net loss of approximately \$4.8 million for the nine months ended September 30, 2018 compared to net realized losses and unrealized gains resulting in a net gain of approximately \$7.0 million for the same period in 2017. As movement in unrealized appreciation or depreciation can be the result of realizations, we look at net realized and unrealized gains or losses together. The net loss for the nine months ended September 30, 2018 was primarily driven by the realized loss on our investment in American Tire Distributors, Inc. ("ATD"), which was sold during the quarter ended June 30, 2018 due to ATD's reported loss of its largest supplier. The provision for income taxes was attributable

to equity investments that are held as of September 30, 2018 in three of our corporate subsidiaries. The net gain for the nine months ended September 30, 2017 was primarily driven by the overall increase in the market prices of our investments during the period. With the completion of the Transtar Holding Company and Sierra restructurings in April 2017 and July 2017, respectively, \$27.6 million and \$14.5 million, respectively, of previously recorded unrealized depreciation related to these investment was realized during the nine months ended September 30, 2017.

Liquidity and Capital Resources

The primary use of existing funds and any funds raised in the future is expected to be for repayment of indebtedness, investments in portfolio companies, cash distributions to our stockholders or for other general corporate purposes.

Since our IPO, and through September 30, 2018, we raised approximately \$614.6 million in net proceeds from additional offerings of our common stock.

Our liquidity is generated and generally available through advances from the revolving credit facilities, from cash flows from operations, and, we expect, through periodic follow-on equity offerings. In addition, we may from time to time enter into additional debt facilities, increase the size of existing facilities or issue additional debt securities, including unsecured debt and/or debt securities convertible into common stock. Any such incurrence or issuance would be subject to prevailing market conditions, our liquidity requirements, contractual and regulatory restrictions and other factors. In accordance with the 1940 Act, with certain limited exceptions, we are only allowed to borrow amounts such that our asset coverage, calculated pursuant to the 1940 Act, is at least 150.0% after such borrowing. On March 23, 2018, the Small Business Credit Availability Act (the "SBCA") was signed into law, which included various changes to regulations under the federal securities laws that impact BDCs. The SBCA included changes to the 1940 Act to allow BDCs to decrease their asset coverage requirement to 150.0% from 200.0% under certain circumstances. On April 12, 2018, our board of directors, including a "required majority" (as such term is defined in Section 57(o) of the 1940 Act) approved the application of the modified asset coverage requirements set forth in Section 61(a)(2) of the 1940 Act, as amended by the SBCA, and recommended the submission of a proposal for stockholders to approve the application of the 150.0% minimum asset coverage ratio to us at a special meeting of stockholders, which was held on June 8, 2018. The stockholder proposal was approved by the required votes of our stockholders at such special meeting of stockholders, and thus we became subject to the 150.0% minimum asset coverage ratio on June 9, 2018. As a result of our exemptive relief received on November 5, 2014, we are permitted to exclude our SBA-guaranteed debentures from the 150.0% asset coverage ratio that the we are required to maintain under the 1940 Act. The agreements governing the NMFC Credit Facility, the 2018 Convertible Notes and the Unsecured Notes (as defined below) contain certain covenants and terms, including a requirement that we not exceed a debt-to-equity ratio of 1.65 to 1.00 at the time of incurring additional indebtedness and a requirement that we not exceed a secured debt ratio of 0.70 to 1.00 at any time. As of September 30, 2018, our asset coverage ratio was 185.7%.

At September 30, 2018 and December 31, 2017, we had cash and cash equivalents of approximately \$146.3 million and \$34.9 million, respectively. Our cash used in operating activities during the nine months ended September 30, 2018 and September 30, 2017 was approximately \$294.7 million and \$144.5 million, respectively. We expect that all current liquidity needs will be met with cash flows from operations and other activities.

All fees associated with the origination or upsizing of the Holdings Credit Facility are capitalized on our Consolidated Statement of Assets and Liabilities and charged against income as other financing expenses over the life of the Holdings Credit Facility. The Holdings Credit Facility contains certain customary affirmative and negative covenants and events of default. In addition, the Holdings Credit Facility requires us to maintain a minimum asset coverage ratio. The covenants are generally not tied to mark to market fluctuations in the prices of NMF Holdings investments, but rather to the performance of the underlying portfolio companies.

The Holdings Credit Facility bears interest at a rate of LIBOR plus 1.75% per annum for Broadly Syndicated Loans (as defined in the Loan and Security Agreement) and LIBOR plus 2.50% per annum for all other investments. Effective April 1,

- (1) Conversion rates denominated in shares of common stock per \$1.0 thousand principal amount of the Convertible Notes converted.
- (2) Represents conversion rate and conversion price, as applicable, taking into account certain de minimis adjustments that will be made on the conversion date.
- (3) The conversion price in effect at September 30, 2018 was calculated on the last anniversary of the issuance and will be calculated again on the next anniversary, unless the exercise price shall have changed by more than 1.0% before the anniversary.

The conversion rate will be subject to adjustment upon certain events, such as stock splits and combinations, mergers, spin-offs, increases in distributions in excess of \$0.34 per share per quarter and certain changes in control. Certain of these adjustments, including adjustments for increases in distributions, are subject to a conversion price floor of \$14.05 per share for the 2014 Convertible Notes and \$13.80 per share for the 2018 Convertible Notes. In no event will the total number of shares of common stock issuable upon conversion exceed 71.1893 per \$1.0 thousand principal amount of the 2014 Convertible Notes or 72.4637 per \$1 principal amount of the 2018 Convertible Notes. We have determined that the embedded conversion option in the Convertible Notes is not required to be separately accounted for as a derivative under GAAP.

The Convertible Notes are unsecured obligations and rank senior in right of payment to our existing and future indebtedness, if any, that is expressly subordinated in right of payment to the Convertible Notes; equal in right of payment to our existing and future unsecured indebtedness that is not so subordinated; effectively junior in right of payment to any of our secured indebtedness (including existing unsecured indebtedness that we later secure) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by our subsidiaries and financing vehicles. The issuance is considered part of the if-converted method for calculation of diluted earnings per share.

The NPA provides for future issuances of unsecured notes in separate series or tranches.

These interest rates are subject to increase in the event that: (i) subject to certain exceptions, the underlying unsecured notes or we cease to have an investment grade rating or (ii) the aggregate amount of our unsecured debt falls below \$150,000. In each such event, we have the option to offer to prepay the underlying unsecured notes at par, in which case holders of the underlying unsecured notes who accept the offer would not receive the increased interest rate. In addition, we are obligated to offer to prepay the underlying unsecured notes at par if the Investment Adviser, or an affiliate thereof, ceases to be our investment adviser or if certain change in control events occur with respect to the Investment Adviser.

The NPA contains customary terms and conditions for unsecured notes issued, including, without limitation, an option to offer to prepay all or a portion of the unsecured notes under its governance at par (plus a make-whole amount if applicable), affirmative and negative covenants such as information reporting, maintenance of our status as a BDC under the 1940 Act and a RIC under the Code, minimum stockholders' equity, minimum asset coverage ratio, and prohibitions on certain fundamental changes at NMFC or any subsidiary guarantor, as well as customary events of default with customary cure and notice, including, without limitation, nonpayment, misrepresentation in a material respect, breach of covenant, cross-default under other indebtedness of NMFC or certain significant subsidiaries, certain judgments and orders, and certain events of bankruptcy. The Third Supplement includes additional financial covenants related to asset coverage as well as other terms.

On September 25, 2018, we closed a registered public offering of \$50.0 million in aggregate principal amount of five-year 5.75% Unsecured Notes (together with the 2016 Unsecured Notes, 2017A Unsecured Notes, 2018A Unsecured Notes and 2018B Unsecured Notes, the "Unsecured Notes"), pursuant to an indenture, dated August 20, 2018, as supplemented by a second supplemental indenture thereto, dated September 25, 2018 (together, the "2018B Indenture").

The 5.75% Unsecured Notes bear interest at an annual rate of 5.75%, payable quarterly on January 1, April 1, July 1 and October 1 of each year, which commences on January 1, 2019. The 5.75% Unsecured Notes will mature on October 1, 2023 unless earlier redeemed. The 5.75% Unsecured Notes are listed on the New York Stock Exchange and trade under the trading symbol "NMFV."

We may redeem the 5.75% Unsecured Notes, in whole or in part, at any time, or from time to time, at our option on or after October 1, 2020, upon not less than 30 days nor more than 60 days written notice by mail prior to the date fixed for redemption thereof, at a redemption price of 100% of the outstanding principal amount thereof plus accrued and unpaid interest payments otherwise payable for the then-current quarterly interest period accrued to but not including the date fixed for redemption.

No sinking fund is provided for the 5.75% Unsecured Notes and holders of the 5.75% Unsecured Notes have no option to have their 5.75% Unsecured Notes repaid prior to the stated maturity date.

The 2018B Indenture contains certain covenants, including covenants requiring us to (i) comply with the asset coverage requirements set forth in Section 18(a)(1)(A) of the 1940 Act as modified by Section 61(a)(1) of the 1940 Act as may be applicable to us from time to time or any successor provisions, whether or not we continue to be subject to such provisions of the 1940 Act, but giving effect, in either case, to any exemptive relief granted to us by the SEC and (ii) provide certain

financial information to the holders of the 5.75% Unsecured Notes and the trustee if we cease to be subject to the reporting requirements of the Exchange Act. The 2018B Indenture also includes additional financial covenants related to asset coverage. These covenants are subject to limitations and exceptions that are described in the 2018B Indenture.

The 2018B Indenture provides for customary events of default and further provides that the trustee or the holders of 25% in aggregate principal amount of the outstanding 5.75% Unsecured Notes may declare such 5.75% Unsecured Notes immediately due and payable upon the occurrence of any event of default after expiration of any applicable grace period.

The Unsecured Notes are unsecured obligations and rank senior in right of payment to our existing and future indebtedness, if any, that is expressly subordinated in right of payment to the Unsecured Notes; equal in right of payment to our existing and future unsecured indebtedness that is not so subordinated; effectively junior in right of payment to any of our secured indebtedness (including existing unsecured indebtedness that we later secure) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by our subsidiaries and financing vehicles.

The following table summarizes the interest expense and amortization of financing costs incurred on the Unsecured Notes for the three and nine months ended September 30, 2018 and September 30, 2017.

As of September 30, 2018 and December 31, 2017, the outstanding balance on the Unsecured Notes was \$335.0 million and \$145.0 million, respectively, and we were in compliance with the terms of the NPA and the 2018B Indenture as of such dates, as applicable.

SBA-guaranteed debentures—On August 1, 2014 and August 25, 2017, respectively, SBIC I and SBIC II received SBIC licenses from the SBA to operate as SBICs.

The SBIC license allows SBICs to obtain leverage by issuing SBA-guaranteed debentures, subject to the issuance of a capital commitment by the SBA and other customary procedures. SBA-guaranteed debentures are non-recourse to us, interest only debentures with interest payable semi-annually and have a ten year maturity. The principal amount of SBA-guaranteed debentures is not required to be paid prior to maturity but may be prepaid at any time without penalty. The interest rate of SBA-guaranteed debentures is fixed on a semi-annual basis at a market-driven spread over U.S. Treasury Notes with ten year maturities. The SBA, as a creditor, will have a superior claim to the assets of SBIC I and SBIC II over our stockholders in the event SBIC I and SBIC II are liquidated or the SBA exercises remedies upon an event of default.

The maximum amount of borrowings available under current SBA regulations for a single licensee is \$150.0 million as long as the licensee has at least \$75.0 million in regulatory capital, receives a capital commitment from the SBA and has been through an examination by the SBA subsequent to licensing. In June 2018, the U.S. Senate passed the Small Business Investment Opportunity Act, which the President signed into law, that amended the 1958 Act by increasing the individual leverage limit from \$150.0 million to \$175.0 million, subject to SBA approvals.

As of September 30, 2018 and December 31, 2017, SBIC I had regulatory capital of \$75.0 million and \$75.0 million, respectively, and SBA-guaranteed debentures outstanding of \$150.0 million and \$150.0 million, respectively. As of September 30, 2018 and December 31, 2017, SBIC II had regulatory capital of \$42.5 million and \$2.5 million, respectively, and \$15.0 million and \$0, respectively, of SBA-guaranteed debentures outstanding. The SBA-guaranteed debentures incur upfront fees of 3.425%, which consists of a 1.00% commitment fee and a 2.425% issuance discount, which are amortized over the life of the SBA-guaranteed debentures. The following table summarizes our SBA-guaranteed debentures as of September 30, 2018.

(2) SBA-guaranteed debentures are held in SBIC II.

Prior to pooling, the SBA-guaranteed debentures bear interest at an interim floating rate of LIBOR plus 0.30%. Once pooled, which occurs in March and September each year, the SBA-guaranteed debentures bear interest at a fixed rate that is set to the current 10-year treasury rate plus a spread at each pooling date.

The SBIC program is designed to stimulate the flow of private investor capital into eligible smaller businesses, as defined by the SBA. Under SBA regulations, SBICs are subject to regulatory requirements, including making investments in SBA-eligible businesses, investing at least 25.0% of its investment capital in eligible small businesses, as defined under the 1958 Act, placing certain limitations on the financing terms of investments, regulating the types of financing, prohibiting investments in small businesses with certain characteristics or in certain industries and requiring capitalization thresholds that limit distributions to us. SBICs are subject to an annual periodic examination by an SBA examiner to determine the SBIC's compliance with the relevant SBA regulations and an annual financial audit of its financial statements that are prepared on a basis of accounting other than GAAP (such as ASC 820) by an independent auditor. As of September 30, 2018 and December 31, 2017, SBIC I and SBIC II were in compliance with SBA regulatory requirements.

Off-Balance Sheet Arrangements

We may become a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financial needs of our portfolio companies. These instruments may include commitments to extend credit and involve, to varying degrees, elements of liquidity and credit risk in excess of the amount recognized in the balance sheet. As of September 30, 2018 and December 31, 2017, we had outstanding commitments to third parties to fund investments totaling

\$138.6 million and \$77.4 million, respectively, under various undrawn revolving credit facilities, delayed draw commitments or other future funding commitments.

We may from time to time enter into financing commitment letters or bridge financing commitments, which could require funding in the future. As of September 30, 2018 and December 31, 2017, we had commitment letters to purchase investments in an aggregate par amount of \$15.8 million and \$13.9 million, respectively. As of September 30, 2018 and December 31, 2017, we had not entered into any bridge financing commitments which could require funding in the future.

As of September 30, 2018 and December 31, 2017, we owed \$9.0 million and \$12.0 million, respectively, related to a settlement agreement with a trustee of Black Elk Energy Offshore Operations, LLC. We began to make semi-annual payments of \$3.0 million in June 2018, with the final payment due in December 2019.

As of September 30, 2018, we had unfunded commitments related to an equity investment in SLP III of \$13.2 million, which may be funded at our discretion.

We have entered into the Investment Management Agreement with the Investment Adviser in accordance with the 1940 Act. Under the Investment Management Agreement, the Investment Adviser has agreed to provide us with investment advisory and management services. We have agreed to pay for these services (1) a management fee and (2) an incentive fee based on our performance.

We have also entered into the Administration Agreement with the Administrator. Under the Administration Agreement, the Administrator has agreed to arrange office space for us and provide office equipment and clerical, bookkeeping and record keeping services and other administrative services necessary to conduct our respective day-to-day operations. The Administrator has also agreed to maintain, or oversee the maintenance of, our financial records, our reports to stockholders and reports filed with the SEC.

If any of the contractual obligations discussed above are terminated, our costs under any new agreements that are entered into may increase. In addition, we would likely incur significant time and expense in locating alternative parties to provide the services we expect to receive under the Investment Management Agreement and the Administration Agreement.

- (1) Tax characteristics of all distributions paid are reported to stockholders on Form 1099 after the end of the calendar year. For the years ended December 31, 2017 and December 31, 2016, total distributions were \$100.9 million and \$88.8 million, respectively, of which the distributions were comprised of approximately 71.50% and 89.46%, respectively, of ordinary income, 0.00% and 0.00%, respectively, of long-term capital gains and approximately 28.50% and 10.54%, respectively, of a return of capital. Future quarterly distributions, if any, will be determined by our board of directors.

We intend to pay quarterly distributions to our stockholders in amounts sufficient to maintain our status as a RIC. We intend to distribute approximately all of our net investment income on a quarterly basis and substantially all of our taxable income on an annual basis, except that we may retain certain net capital gains for reinvestment.

We maintain an "opt out" dividend reinvestment plan on behalf of our common stockholders, pursuant to which each of our stockholders' cash distributions will be automatically reinvested in additional shares of common stock, unless the stockholder elects to receive cash. See *Item 1— Financial Statements—Note 2. Summary of Significant Accounting Policies* for additional details regarding our dividend reinvestment plan.

Related Parties

We have entered into a number of business relationships with affiliated or related parties, including the following:

- We have entered into the Investment Management Agreement with the Investment Adviser, a wholly-owned subsidiary of New Mountain Capital. Therefore, New Mountain Capital is entitled to any profits earned by the Investment Adviser, which includes any fees payable to the Investment Adviser under the terms of the Investment Management Agreement, less expenses incurred by the Investment Adviser in performing its services under the Investment Management Agreement.
- We have entered into the Administration Agreement with the Administrator, a wholly-owned subsidiary of New Mountain Capital. The Administrator arranges our office space and provides office equipment and administrative services necessary to conduct our respective day-to-day operations pursuant to the Administration Agreement. We reimburse the Administrator for the allocable portion of overhead and other expenses incurred by it in performing its obligations to us under the Administration Agreement, which includes the fees and expenses associated with

performing administrative, finance, and compliance functions, and the compensation of our chief financial officer and chief compliance officer and their respective staffs. Pursuant to the Administration Agreement and further restricted by us, the Administrator may, in its own discretion, submit to us for reimbursement some or all of the expenses that the Administrator has incurred on our behalf during any quarterly period. As a result, the amount of expenses for which we will have to reimburse the Administrator may fluctuate in future quarterly periods and there can be no assurance given as to when, or if, the Administrator may determine to limit the expenses that the Administrator submits to us for reimbursement in the future. However, it is expected that the Administrator will continue to support part of our expense burden in the near future and may decide to not calculate and charge through certain overhead related amounts as well as continue to cover some of the indirect costs. The Administrator cannot recoup any expenses that the Administrator has previously waived. For the three and nine months ended September 30, 2018 approximately \$0.5 million and \$1.7 million, respectively, of indirect administrative expenses were included in administrative expenses, of which approximately \$0.0 million and \$0.3 million, respectively, of indirect administrative expenses were waived by the Administrator. As of September 30, 2018, \$0.8 million of indirect administrative expenses were included in payable to affiliates.

- We, the Investment Adviser and the Administrator have entered into a royalty-free Trademark License Agreement, as amended, with New Mountain Capital, pursuant to which New Mountain Capital has agreed to grant us, the Investment Adviser and the Administrator a non-exclusive, royalty-free license to use the name "New Mountain" and "New Mountain Finance".

In addition, we have adopted a formal code of ethics that governs the conduct of our officers and directors. These officers and directors also remain subject to the duties imposed by the 1940 Act, the Delaware General Corporation Law and the Delaware Limited Liability Company Act.

The Investment Adviser and its affiliates may also manage other funds in the future that may have investment mandates that are similar, in whole or in part, to our investment mandates. The Investment Adviser and its affiliates may determine that an investment is appropriate for us and for one or more of those other funds. In such event, depending on the availability of such investment and other appropriate factors, the Investment Adviser or its affiliates may determine that we should invest side-by-side with one or more other funds. Any such investments will be made only to the extent permitted by applicable law and interpretive positions of the SEC and its staff, and consistent with the Investment Adviser's allocation procedures. On December 18, 2017, the SEC issued an exemptive order (the "Exemptive Order"), which superseded a prior order issued on June 5, 2017, which permits us to co-invest in portfolio companies with certain funds or entities managed by the Investment Adviser or its affiliates in certain negotiated transactions where co-investing would otherwise be prohibited under the 1940 Act, subject to the conditions of the Exemptive Order. Pursuant to the Exemptive Order, we are permitted to co-invest with our affiliates if a "required majority" (as defined in Section 57(o) of the 1940 Act) of our independent directors make certain conclusions in connection with a co-investment transaction, including, but not limited to, that (1) the terms of the potential co-investment transaction, including the consideration to be paid, are reasonable and fair to us and our stockholders and do not involve overreaching in respect of us or our stockholders on the part of any person concerned, and (2) the potential co-investment transaction is consistent with the interests of our stockholders and is consistent with our then-current investment objective and strategies.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are subject to certain financial market risks, such as interest rate fluctuations. During the nine months ended September 30, 2018, certain of the loans held in our portfolio had floating interest rates. As of September 30, 2018, approximately 87.2% of investments at fair value (excluding investments on non-accrual, unfunded debt investments and non-interest bearing equity investments) represent floating-rate investments with a LIBOR floor (includes investments bearing prime interest rate contracts) and approximately 12.8% of investments at fair value represent fixed-rate investments. Additionally, our senior secured revolving credit facilities are also subject to floating interest rates and are currently paid based on one-month floating LIBOR rates.

The following table estimates the potential changes in net cash flow generated from interest income and expenses, should interest rates increase by 100, 200 or 300 basis points, or decrease by 25 basis points. Interest income is calculated as revenue from interest generated from our portfolio of investments held on September 30, 2018. Interest expense is calculated based on the terms of our outstanding revolving credit facilities, convertible notes and unsecured notes. For our floating rate credit facilities, we use the outstanding balance as of September 30, 2018. Interest expense on our floating rate credit facilities is calculated using the interest rate as of September 30, 2018, adjusted for the hypothetical changes in rates, as shown below. The base interest rate case assumes the rates on our portfolio investments remain unchanged from the actual effective interest rates as of September 30, 2018. These hypothetical calculations are based on a model of the investments in our portfolio, held as of September 30, 2018, and are only adjusted for assumed changes in the underlying base interest rates.

Actual results could differ significantly from those estimated in the table.

Change in Interest Rates	Estimated Percentage Change in Interest Income Net of Interest Expense (unaudited)
-25 Basis Points	(2.12)%
Base Interest Rate	— %
+100 Basis Points	8.77 %
+200 Basis Points	17.63 %
+300 Basis Points	26.50 %

Item 4. Controls and Procedures

(a) *Evaluation of Disclosure Controls and Procedures*

As of September 30, 2018 (the end of the period covered by this report), we, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Exchange Act. Based on that evaluation, our management, including the Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective and provided reasonable assurance that information required to be disclosed in our periodic United States Securities and Exchange Commission filings is recorded, processed, summarized and reported within the time periods specified in the United States Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. However, in evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of such possible controls and procedures.

(b) *Changes in Internal Controls Over Financial Reporting*

Management has not identified any change in our internal control over financial reporting that occurred during the quarter ended September 30, 2018 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

The terms “we”, “us”, “our” and the “Company” refers to New Mountain Finance Corporation and its consolidated subsidiaries.

Item 1. Legal Proceedings

There have been no material changes during the nine months ended September 30, 2018 to the Legal Proceedings discussed in *Item 3. Legal Proceedings* in our Annual Report on Form 10-K for the year ended December 31, 2017.

We, and our consolidated subsidiaries, the Investment Adviser and the Administrator are not currently subject to any material pending legal proceedings threatened against us as of September 30, 2018. From time to time, we may be a party to certain legal proceedings incidental to the normal course of our business including the enforcement of our rights under contracts with our portfolio companies. While the outcome of these legal proceedings cannot be predicted with certainty, we do not expect that these proceedings will have a material effect upon our business, financial condition or results of operations.

Item 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the factors discussed in *Item 1A. Risk Factors* in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017, which could materially affect our business, financial condition and/or operating results. The risks described in our Annual Report on Form 10-K are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially and adversely affect our business, financial condition and/or operating results. Other than as set forth below, there have been no material changes during the nine months ended September 30, 2018 to the risk factors discussed in *Item 1A. Risk Factors* in our Annual Report on Form 10-K for the year ended December 31, 2017.

The terms of our credit facilities may contractually limit our ability to incur additional indebtedness.

We will need additional capital to fund new investments and grow our portfolio of investments. We intend to access the capital markets periodically to issue debt or equity securities or borrow from financial institutions in order to obtain such additional capital. We believe that having the flexibility to incur additional leverage could augment the returns to our stockholders and would be in the best interests of our stockholders. Even though our board of directors and our shareholders have approved a resolution permitting us to be subject to a 150.0% asset coverage ratio to be effective as of June 9, 2018, contractual leverage limitations under our existing credit facilities or future borrowings may limit our ability to incur additional indebtedness. Currently, our NMFC Credit Facility restricts our ability to incur additional indebtedness if after incurring such additional debt, our asset coverage ratio would be below 161.0%, amended from 200.0% on July 5, 2018. Also, the NMFC Credit Facility requires that we not exceed a secured debt ratio of 0.70 to 1.00 at any time. We cannot assure you that we will be able to negotiate a change to our credit facilities to allow us to incur additional leverage or that any such an amendment will be available to us on favorable terms. An inability on our part to amend the contractual asset coverage limitation and access additional leverage could limit our ability to take advantage of the benefits described above related to our ability to incur additional leverage and could decrease our earnings, if any, which would have an adverse effect on our results of operations and the value of our shares of common stock.

Recent legislation may allow us to incur additional leverage which could increase the risk of investing in us.

The 1940 Act generally prohibits us from incurring indebtedness unless immediately after such borrowing we have an asset coverage for total borrowings of at least 200.0% (i.e., the amount of debt may not exceed 50.0% of the value of our assets). However, on March 23, 2018, the Consolidated Appropriations Act of 2018, which includes the SBCA, was signed into law. The SBCA amends the 1940 Act to permit a BDC to reduce the required minimum asset coverage ratio applicable to it from 200.0% to 150.0% (i.e., the amount of debt may not exceed 66.7% of the value of our assets), subject to certain requirements described therein. On April 12, 2018, our board of directors, including a “required majority” (as such term is defined in Section 57(o) of the 1940 Act) approved the application of the modified asset coverage requirements set forth in Section 61(a)(2) of the 1940 Act, as amended by the SBCA and recommended the submission of a proposal for stockholders to approve the application of the 150.0% minimum asset coverage ratio to us at a special meeting of stockholders, which was held on June 8, 2018. The stockholder proposal was approved by the required votes of our stockholders at such special meeting of stockholders, and thus we became subject to the 150.0% minimum asset coverage ratio on June 9, 2018. Changing the asset coverage ratio permits us to double our leverage, which results in increased leverage risk and increased expenses.

As a result of this legislation, we are able to increase our leverage up to an amount that reduces our asset coverage ratio from 200.0% to 150.0%. Leverage magnifies the potential for loss on investments in our indebtedness and on invested equity capital. As we use leverage to partially finance our investments, you will experience increased risks of investing in our securities. If the value of our assets increases, then leveraging would cause the net asset value attributable to our common stock

to increase more sharply than it would have had we not leveraged. Conversely, if the value of our assets decreases, leveraging would cause net asset value to decline more sharply than it otherwise would have had we not leveraged our business. Similarly, any increase in our income in excess of interest payable on the borrowed funds would cause our net investment income to increase more than it would without the leverage, while any decrease in our income would cause net investment income to decline more sharply than it would have had we not borrowed. Such a decline could negatively affect our ability to pay common stock dividends, scheduled debt payments or other payments related to our securities. Leverage is generally considered a speculative investment technique.

In addition, in December 2015, the 2016 omnibus spending bill approved by the U.S. Congress and signed into law by the President increased the amount of SBA-guaranteed debentures that affiliated SBIC funds can have outstanding from \$225.0 million to \$350.0 million, subject to SBA approval. This new legislation may allow us to issue additional SBIC debentures above the \$225.0 million of SBA-guaranteed debentures previously permitted pending application for and receipt of additional SBIC licenses. If we incur this additional indebtedness in the future, your risk of an investment in our securities may increase. The maximum amount of borrowings available under current SBA regulations for a single licensee is \$150.0 million as long as the licensee has at least \$75.0 million in regulatory capital, receives a capital commitment from the SBA and has been through an examination by the SBA subsequent to licensing. In June 2018, the U.S. Senate passed the Small Business Investment Opportunity Act, which the President signed into law, that amended the 1958 Act by increasing the individual leverage limit from \$150.0 million to \$175.0 million, subject to SBA approvals.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

We did not engage in unregistered sales of equity securities during the quarter ended September 30, 2018.

Issuer Purchases of Equity Securities

Dividend Reinvestment Plan

During the quarter ended September 30, 2018, we did not purchase any of our common stock in the open market in connection with our dividend reinvestment plan.

Stock Repurchase Program

On February 4, 2016, our board of directors authorized a program for the purpose of repurchasing up to \$50.0 million worth of our common stock. Under the repurchase program, we were permitted, but were not obligated to, repurchase our outstanding common stock in the open market from time to time, provided that we complied with our code of ethics and the guidelines specified in Rule 10b-18 of the Exchange Act, including certain price, market volume and timing constraints. In addition, any repurchases were conducted in accordance with the 1940 Act. On December 29, 2017, our board of directors extended our repurchase program and we expect the repurchase program to be in place until the earlier of December 31, 2018 or until \$50.0 million of outstanding shares of common stock have been repurchased. We did not repurchase any shares of our common stock under the repurchase program during the quarter ended September 30, 2018.
